CHILD WELFARE UNIT OFFERING NEW SERVICES

Two additional services of the Adams County Child Welfare Services were outlined to the advisory committee of the unit Thursday evening at the courthouse.

Miss Dorothy Curtis, child welfare director, said the service can provide preadoptive foster homes for newly-born children prior to adoption of the child by families outside the county. In addition, she said the county Child Welfare Services can assist in placing retarded children in various schools.

She said such services have been used infrequently in the county and told the advisory board members that they, as the contact with the public generally, can tell of such services when they hear of needs. Guides for advisory committee members, sent by the state Department of Welfare outlining the duties of the committee members, were distributed at the meeting.

Preliminary plans were discussed for the annual child welfare dinner to be held in April.

The committee's treasurer, Mrs. George Eberhart, reported that it ended the year with a balance of \$300. AG EXTENSION GROUP ENTERS ITS 50TH YEAR

The Adams County Agricultural Extension Association is entering its 50th year with problems and programs far different from those of a half century ago, according to reports presented by the staff at the annual all-day meeting of the executive committee of the Extension Association Thursday at the Varsity Diner.

County Agent Frank S. Zettle said, "Keeping in mind that only one out of 10 of the boys on the farm today will remain on the farm tomorrow, our outlook must become even broader. We are faced with developing a program that will prepare nine out of 10 of these young people to meet the challenge of urban living and jobs in town."

Programs for youth were but one phase of the reports and discussion with the overall goal of extension work listed as "to have a community that is more satisfactory in which to live and work."

CITE ACHIEVEMENTS

The reports praised parents for their interest in 4-H work adding that "the increase interest of the parents is revealed by the higher caliber of work done by those youths in the program. During 1962 six 4-H members entered national competition."

According to the reports, the 4-H Town and Country Business program for older youth in completing its third year in 1962 helped to change an attitude that had disturbed extension officials.

"One of the outstanding problems was the indifference to advanced education denoted by the high rate of high school dropout," according to the annual reports. "To help meet that problem, one of the goals of the Town and Country Business program was 'to show a definite need for advanced education.' Results were shown with the completion of the 1962 program, according to the report: 'The club had many of its members enroll at the state university this fall. For some, this meant a complete change in philosophy.'"

LOOK TO FUTURE

Discussion indicated plans to place increased stress on activities for young people aged 18 to 25 during the coming year.

Adoption of a program of junior leaders for 4-H clubs during the last year proved excellent, according to the reports and continued emphasis will be placed on the junior leader program not only as a means of improving 4-H work, but to develop future leaders.

Noting the success of the county in farming, the reports said: "Looking forward to the future of Adams County, it is imperative that the community remain in competition with the other producing areas of state and nation."

Among plans are to "work with individual producers on farm record analysis and necessary adjustments to retain their competitive position; to work with allied industries and to consider agriculture-industry as a whole and be prepared to point out each individuals' place in the readjustment."

Tshombe Threatens Fight To Finish If Negotiations Fail

By ROBIN P. MANNOCK
LEOPOLDVILLE, the Congo (AP)—Katanga President Moise Tshombe was reported today making a new bid for negotiations as U.N. combat forces prepared to close in on the remnants of his resistance forces at Kolwezi.

But if there are no negotiations and U.N. troops continue advancing, Tshombe declared in an interview. "We shall fight to the end. If Kolwezi falls, then we will fight in the bush."

Tshombe was interviewed in Kolwezi by Adrian Porter of The Associated Press and a Belgian newsman as U.N. Indian, Irish and Ethiopian troops chased dwindling Katanga forces out of Jadotville without a fight.

REARGUARD FLEES

A rearguard of Tshombe's guerrillas and white mercenaries fled in automobiles seized from civilians, yielding the important copper and cobalt producing center which they had threatened to defend street by street.

The victory left U.N. forces in control of up to three-fourths of Katanga's ore-producing facilities. Tshombe left Jadotville earlier with the main body of Katangans and set up the remnants of his government in Kolwezi, 150 miles northwest of his former capital of Elisabethville and 80 miles beyond Jadotville.

"I hear that (U.N. Secretary-General) U Thant wants me to start negotiations," Tshombe said. "I am disposed to do so."

REJECTED PLEA

He said he had been waiting in vain for a U.N. plane to pick him up to return to Elisabethville for talks and also for word from the American and British consuls in Elisabethville guaranteeing his safety.

There was no indication here on what Tshombe based his statement that Thant wished negotiations. The secretary-general on Wednesday rejected Tshombe's condition for talks — a cease-fire (Continued On Page 3)

SEWER ISSUE In Fairfield Snags School Building Plan

Fairfield's new school building program Tuesday night hit a snag which delayed the awarding of contracts for at least another week.

Meeting jointly with the municipal authority and borough council, the joint school board, after lengthy discussions with the two other groups, was advised by telephone by William Bolen, Philadelphia bonding counsel, that a bond bid would be submitted to the board next Thursday night to permit school authorities to proceed with plans for the construction of an 11-room addition to the present school buildings.

SEWER DISPUTE

The delay in awarding the contracts resulted from a controversy over whether the borough plans to install a sewer system or whether the school will include its own sewer disposal plant in the building program. The addition of a private plant for the school would increase the cost of the building program by at least \$80,000, bringing the total cost of construction to about \$750,000.

Attorney Charles W. Wolf explained the sewer issue to the group of 30 representatives of the three local authorities.

The school board, under the chairmanship of Joseph Lowe, president, announced that contracts would be signed at the January 10 meeting, following the acceptance of the bond issue by the board. The bond bid will include funds for construction.

The sewer issue in Fairfield has been highly controversial and borough council has delayed taking action on the installation of a town system which could serve the school.

"One of the outstanding problems was the indifference to advanced education denoted by the high rate of high school dropout," according to the annual reports. "To help meet that problem, one of the goals of the Town and Country Business program was 'to show a definite need for advanced education.' Results were shown with the completion of the 1962 program, according to the report: 'The club had many of its members enroll at the state university this fall. For some, this meant a complete change in philosophy.'"

LOOK TO FUTURE

Discussion indicated plans to place increased stress on activities for young people aged 18 to 25 during the coming year.

Adoption of a program of junior leaders for 4-H clubs during the last year proved excellent, according to the reports and continued emphasis will be placed on the junior leader program not only as a means of improving 4-H work, but to develop future leaders.

Noting the success of the county in farming, the reports said: "Looking forward to the future of Adams County, it is imperative that the community remain in competition with the other producing areas of state and nation." Among plans are to "work with individual producers on farm record analysis and necessary adjustments to retain their competitive position; to work with allied industries and to consider agriculture-industry as a whole and be prepared to point out each individual's place in the readjustment."

WOMAN'S ARM BROKEN BY CAR

Miss Effie G. Noel, 72, 150 W. Middle St., suffered a broken right arm, cuts and bruises of the arm, body bruises and head cuts and bruises when struck by a car on Baltimore St. at Lincoln Square this morning at 10:25 o'clock.

Borough police said Miss Noel was crossing from the east to the west side of the square when she was struck by a southbound auto driven by Miss Elizabeth Ann Lott, 22, Aspers R. 1.

Police Chief Jack Barlett said he believed Miss Lott was blinded by the sunlight as she drove south from the square into Baltimore St. Miss Lott told the chief that she did not see Miss Noel until she heard the sound of her car striking the local woman and saw Miss Noel's arms "fly up in the air."

Miss Noel told police that she had started across the intersection in the belief that she could make the crossing safely. She had neared the west side of the crossing when she glanced up and saw the approaching Lott car but was unable to get out of its way.

Sewer Issue In Fairfield Snags School Building Plan

Fairfield's new school building program Tuesday night hit a snag which delayed the awarding of contracts for at least another week.

Meeting jointly with the municipal authority and borough council, the joint school board, after lengthy discussions with the two other groups, was advised by telephone by William Bolen, Philadelphia bonding counsel, that a bond bid would be submitted to the board next Thursday night to permit school authorities to proceed with plans for the construction of an 11-room addition to the present school buildings.

SEWER DISPUTE

The delay in awarding the contracts resulted from a controversy over whether the borough plans to install a sewer system or whether the school will include its own sewer disposal plant in the building program. The addition of a private plant for the school would increase the cost of the building program by at least \$90,000, bringing the total cost of construction to about \$575,000.

Attorney Charles W. Wolf explained the sewer issue to the group of 30 representatives of the three local authorities.

The school board, under the chairmanship of Joseph Lowe, president, announced that contracts would be signed at the January 10 meeting, following the acceptance of the bond issue by the board. The bond bid will include funds for construction.

The sewer issue in Fairfield has been highly controversial and borough council has delayed taking action on the installation of a town system which could serve the school.

ment." Need for markets and marketing information will become more important as agriculture becomes more competitive, the county agents reported. The "very outstanding progress last year in the area of dairying," according to the reports, proves that this community can compete not only in fruit products but other commodities as well.

Besides agriculture programs, the extension service also has stepped into a number of other programs including mental health, day care centers, senior citizen programs and home development. It was noted that families request assistance in home remodeling, restoration, building and furnishings. A strong specialist staff is needed to assist the county in upgrading homes.

ronous impression at the session. Eight-year-old David Volland saw flames leaping out of the chimney at the home of Robert Martin in Heidlersburg and licking down over the roof. He went to the Adams Grocery Store and reported. A quick glance disclosed that flames were flying as reported by the youth. Mrs. John Adams was asked to call the Quick Call Center here to report what she had seen and call for assistance. Others at the store left presumably to call the Heidlersburg firemen and Mrs. Adams was acting under that belief.

HEAR VOICE RECORDING

While Mrs. Adams was on the phone, the flames died down. A quick investigation showed that Martin had been burning Christmas wrapping in a fireplace and that had caused the fire to fly out of the chimney. When Biglerville and York Springs firemen arrived no one could find a blaze. Heidlersburg and the other fire chiefs commended Mrs. Adams for doing exactly what she should have done. She saw fire and so reported. They agreed that it is best to act quickly when flames are flying. They even listened to a tape recording of Mrs. Adams voice as received over the phone at the Quick Call Center here and held she had done "very well" in properly reporting the location and what she had seen.

They also encouraged others to call as quickly on any occasion they see fire—noting that it is better to respond and find no fire than to lose time and have a much more serious blaze on hand.

SAYS MINE HAD VENTILATING TROUBLE DEC. 6

CARMICHAELS, Pa. (AP)—An assistant mine foreman, testifying in the first day of hearings into last month's disaster at U. S. Steel Corp.'s Robena mine, says there was ventilation trouble in the mine just before the explosion which killed 37 men.

Edward C. Urbany of Waynesburg, an assistant foreman at the Robena No. 3 mine, told investigators Thursday that on the morning of the explosion, Dec. 6, he was working in a different section of the mine. He said the ventilation system in this area was working properly and he found no excessive traces of explosive methane gas.

After lunch, he related, while on his way by jeep to the area where the 37 men were working, he encountered the first sign of trouble—a "thick puff of dust." He said he phoned the mine train dispatcher and was told the ventilation fan was acting up.

DONNED BY BLAST

"The power was kicking off and on," Urbany said.

He was still two miles from the mine face where the men were working and started toward them on foot. Suddenly an explosion knocked him down.

"I lost my hat, my safety lamp and safety glasses . . . I rolled to the side and at this point I did an ostrich act," huddling behind a timber, he said.

Urbany got to his feet, donned a small respirator and headed toward the elevator shaft.

He said he met mine superintendent George Wydo and "at this point we determined we were in serious trouble." Rescue teams were summoned.

QUIZZED BY SECRETARY

State Secretary of Mines Lewis M. Evans, who is in charge of the public hearing, asked Urbany if an explosion would have occurred if the ventilation system had been working properly.

"I can't understand it," Urbany answered. "But, of course, something went wrong, and I don't know what it was."

R. R. Goddard of Uniontown, who is in charge of the electrical system at all three Robena mines, said power is controlled from a main panel and it takes eight minutes to de-energize the entire system.

COUNTY ON TV PROGRAM

Lynn Lerew, a Susquehanna University senior from Bendersville, will appear in a "College of the Air" program over WGAL-TV next Tuesday morning.

The half-hour program beginning at 9 a.m. will be devoted to "Opera and Music Drama." It will be the 13th in a weekly series of 14 programs presented by Susquehanna's Division of Music.

Lerew and Arlene Roberts, a junior, Conemaugh, Pa., will do a scene from the Mozart opera, "Don Giovanni."

The program will be under the direction of Frances E. Alterman, assistant professor of music at Susquehanna, who will discuss the development of opera as an art form.

Lerew is the son of Mr. and Mrs. Harry Lerew, 21, N. Main St., Bendersville. A 1959 graduate of Biglerville High School, he is majoring in music education at Susquehanna. He is one of 16 Susquehanna seniors who were selected recently to have their names included in the 1962-63 edition of "Who's Who Among Students in American Universities and Colleges."

Jail Customers Fewer During '62

Four hundred forty-four prisoners were confined in the county jail in 1962, Sheriff Dawson Miller reported today.

The number was 50 less than the total for the prior year, despite the placing of some Franklin County prisoners in the local jail in 1962.

There were 427 men and 17 women confined to the local jail during last year, for a total of 1,719 prisoner days. The average number of prisoners per day was slightly over 20. The smallest number in the jail on any one day was 11 on July 12. The largest number in the jail on any one day was 34 on October 13, including six from Franklin County. Seventeen prisoners were in jail during the Christmas holiday period.

ARENDSVILLE PLANING MILL IN NEW HANDS

One of Adams County's oldest lumber mills has been sold to a member of the younger generation, but will continue to operate under the name of the Arendtsville Planing Mill.

Marshall W. Longenecker, operator of the business for the past 16 years, announced today that the firm has been sold to his son-in-law, Elson C. Grim, effective January 1. He said, however, that he will continue to be associated in the operation.

Established in 1908 by the late Pius S. Orner, the mill originally specialized in custom millwork and building supplies but, as the apple industry in Adams County grew, Orner began manufacturing apple barrels and became one of the largest barrel makers in the county.

EXPANDS BUSINESS

Since 1946 Longenecker has expanded the business a number of times to meet the modern demands of local property owners. Two years ago the company entered the contracting field, specializing in remodeling and modernization of homes and business establishments. The contract plans provide for construction and financing benefits.

Grim, a son of Mrs. Mae Grim and the late Clair R. Grim, operator of Lower's Country Store, Table Rock, until his death a few years ago, is married to the former Jane L. Longenecker. He is a graduate of Biglerville High School and served for two years with the army in Korea. Upon his discharge from service he worked for his father for two years and joined his father-in-law in the lumber business six years ago.

Recent expansion programs of Arendtsville Planing Mill include the installation and maintenance of swimming pools.

The company has five full-time employees, one of whom is Hanson Heckenluber, now semi-retired, who was one of the original employees when P. S. Orner started the business in 1908. He continues to work parttime for Arendtsville Planing Mill.

SAYS MINE HAD VENTILATING TROUBLE DEC. 6

CARMICHAELS, Pa. (AP)—An assistant mine foreman, testifying in the first day of hearings into last month's disaster at U. S. Steel Corp.'s Robena mine, says there was ventilation trouble in the mine just before the explosion which killed 37 men.

Edward C. Urbany of Waynesburg, an assistant foreman at the Robena No. 3 mine, told investigators Thursday that on the morning of the explosion, Dec. 6, he was working in a different section of the mine. He said the ventilation system in this area was working properly and he found no excessive traces of explosive methane gas.

After lunch, he related, while on his way by jeep to the area where the 37 men were working, he encountered the first sign of trouble—a "thick puff of dust." He said he phoned the mine train dispatcher and was told the ventilation fan was acting up.

DONNED BY BLAST

"The power was kicking off and on," Urbany said.

He was still two miles from the mine face where the men were working and started toward them on foot. Suddenly in explosion knocked him down.

"I lost my hat, my safety lamp and safety glasses . . . I rolled to the side and at this point I did an ostrich act," huddling behind a timber, he said.

Urbany got to his feet, donned a small respirator and headed toward the elevator shaft.

He said he met mine superintendent George Wydo and "at this point we determined we were in serious trouble." Rescue teams were summoned.

QUIZED BY SECRETARY

State Secretary of Mines Lewis M. Evans, who is in charge of the public hearing, asked Urbany if an explosion would have occurred if the ventilation system had been working properly.

"I can't understand it," Urbany answered. "But, of course, something went wrong, and I don't know what it was."

R. R. Goddard of Uniontown, who is in charge of the electrical system at all three Robena mines, said power is controlled from a main panel and it takes eight minutes to de-energize the entire system.

COUNTIAN ON TV PROGRAM

Lynn Lerew, a Susquehanna University senior from Bendersville, will appear in a "College of the Air" program over WGAL-TV next Tuesday morning.

The half-hour program beginning at 9 a.m. will be devoted to "Opera and Music Drama." It will be the 13th in a weekly series of 14 programs presented by Susquehanna's Division of Music.

Lerew and Arlene Roberts, a junior, Conemaugh, Pa., will do a scene from the Mozart opera, "Don Giovanni."

The program will be under the direction of Frances E. Alterman, assistant professor of music at Susquehanna, who will discuss the development of opera as an art form.

Lerew is the son of Mr. and Mrs. Harry Lerew, 21, N. Main St., Bendersville. A 1959 graduate of Biglerville High School, he is majoring in music education at Susquehanna. He is one of 16 Susquehanna seniors who were selected recently to have their names included in the 1962-63 edition of "Who's Who Among Students in American Universities and Colleges."

Jail Customers Fewer During '62

Four hundred forty-four prisoners were confined in the county jail in 1962, Sheriff Dawson Miller reported today.

The number was 50 less than the total for the prior year, despite the placing of some Franklin County prisoners in the local jail in 1962.

There were 427 men and 17 women confined to the local jail during last year, for a total of 1,719 prisoner days. The average number of prisoners per day was slightly over 20. The smallest number in the jail on any one day was 11 on July 12. The largest number in the jail on any one day was 34 on October 13, including six from Franklin County.

Seventeen prisoners were in jail during the Christmas holiday period.

ARENDTSTVILLE PLANING MILL IN NEW HANDS

One of Adams County's oldest lumber mills has been sold to a member of the younger generation, but will continue to operate under the name of the Arendtsville Planing Mill.

Marshall W. Longenecker, operator of the business for the past 16 years, announced today that the firm has been sold to his son-in-law, Elson C. Grim, effective January 1. He said, however, that he will continue to be associated in the operation.

Established in 1908 by the late Pius S. Orner, the mill originally specialized in custom millwork and building supplies but, as the apple industry in Adams County grew, Orner began manufacturing apple barrels and became one of the largest barrel makers in the county.

EXPANDS BUSINESS

Since 1946 Longenecker has expanded the business a number of times to meet the modern demands of local property owners. Two years ago the company entered the contracting field, specializing in remodeling and modernization of homes and business establishments. The contract plans provide for construction and financing benefits.

Grim, a son of Mrs. Mae Grim and the late Clair R. Grim, operator of Lower's Country Store, Table Rock, until his death a few years ago, is married to the former Jane L. Longenecker. He is a graduate of Biglerville High School and served for two years with the army in Korea. Upon his discharge from service he worked for his father for two years and joined his father-in-law in the lumber business six years ago.

Recent expansion programs of Arendtsville Planing Mill include the installation and maintenance of swimming pools.

The company has five full-time employees, one of whom is Hanson Heckenluber, now semi-retired, who was one of the original employees when P. S. Orner started the business in 1908. He continues to work parttime for Arendtsville Planing Mill.

Named to a committee to plan for buildings and lights at the carnival grounds were Harry Von-Sas Curvin A. Smith, Philip Halgerman, Eugene Murren and James A. Noel.

Murren, chairman of the centennial committee, reported on tentative plans for the celebration scheduled for the week of August 4 to 11.

Lt. David G. Klunk Assigned Overseas

Lt. David G. Klunk, son of Capt. (USN, Ret.) and Mrs. Richard S. Klunk, Hanover, recently was assigned to the 256th Signal Company in Verdun, France. He is assistant operations officer of the company. He entered the Army last June.

The 22-year-old officer is a 1958 graduate of Delone Catholic High School, McSherrystown, and a 1962 graduate of Marquette University, Milwaukee, Wis. He is a member of Sigma Phi Delta fraternity.

Plans were made to again hold the annual University of Scouting in conjunction with the Conewago District. The sessions will be held at New Oxford February 12, 19 and 26, and March 5 and 12.

DINNER FEB. 7

Public Relations Chairman Al-len Stauffer extended an invitation to all district committeemen and all unit leaders and assistants to be present February 7 at 6:30 p.m. at the Scout finance drive kick-off dinner to be held by the C. H. Musselman Co. for the district at the company's Biglerville plant cafeteria.

Stauffer said district committeemen and unit leaders could assist the finance committee in its drive for \$5,900 by telling the public of the need for funds and the details of the program.

District Chairman Melvin Worley appointed Crosby N. Hartzell and Paul Hollinger co-chairmen for the judging of displays to be put up by the Scout units during Boy Scout Week starting February 7. The district committee also urged each unit to hold some special event during Boy Scout week in addition to the display and attendance at church on Boy Scout Sunday, February 10.

Reports showed that only one unit in the district has entered the annual tree planting contest so far. Aspers Troop 75 has ordered 5,000 trees for planting. Other units have until January 15 to order trees for the planting contest.

on the Jadotville road and the consular escort — and said the time was past for negotiations. He said Tshombe must now indicate by actions, not words, willingness to cooperate in U.N. plans for the Congo's unification.

The only discussions now required, Thant said, involved technical questions.

Tshombe's threats to carry out a scorched-earth policy were only partly carried out at Jadotville.

State Gives OK To Adams Apple Disposal Plans: The State Sanitary Water Board at Harrisburg Wednesday afternoon announced its approval of plans for construction of industrial waste treatment works submitted by the Adams Apple Products Corporation at Aspers.

The Adams County establishment was one of a list of a dozen industries and communities whose waste disposal plans have won state approval.

An official of the Adams Apple Corporation plant told The Gettysburg Times that plans submitted to the state were prepared by a firm of consulting engineers and, already notified of the state approval, the company is already seeking bids on the construction work involved. The statement indicated work will be started as soon as weather permits after the letting of the contracts.

Lincoln Room Adds New Items: Among several new items of interest which John D. Lippy Jr. has added to his collection of Lincolniana on display in the Lincoln room in the Wills House are a head of Lincoln picked with a razor blade and needle out of a natural leaf, and a rare, autographed photograph of President Abraham Lincoln from the album of Vinnie Ream, noted sculptress, whose statue of Lincoln stands in the capitol rotunda in Washington, D. C.

The Lincoln head on the large leaf resembling an oak leaf was the work of Brother Adrian Lewis, of Manhattan College, New York City. The latter's work in etching designs on leaves was recently the subject of a feature story in Life magazine. The silhouette was picked out in minute detail, exposing the skeleton of the leaf, with the fleshy part forming the picture itself. It was done especially for the Lincoln room.

The Lincoln photograph is a work of Matthew Brady, famous Civil War photographer, and bears Lincoln's signature.

Lincoln presented the photograph to the sculptress while sitting for her to fashion his likeness in clay for the capitol rotunda.

General Weikert Ordered To Japan: Brigadier John M. Weikert, son of Mr. and Mrs. William Weikert, of McKnightstown, has been transferred from command of the Mobile Air Materiel Area, Brookley Field, Ala., to Japan, according to word received by The Times today.

General Weikert attended Gettysburg college and graduated from West Point. He served many commands in this country and overseas during the war and was twice decorated.

George P. Black Is Assembly Candidate: George P. Black, Baltimore Street, former assistant postmaster of Gettysburg for 27 years, announced his candidacy today for the Republican nomination for representative in the General Assembly from Adams County at the April primary election. A native of Cumberland township, Mr. Black taught school 10 years before beginning 41 years in the postal service. He was a Gettysburg school director for eight years and school board secretary for 14 years. An active member of St. James Lutheran Church, he is also president of the Adams County Building and Loan association. He belongs to the local Masons and the Sons of Union Veterans.

Credit Publication Quotes E. W. Thomas: "The People's Credit" nation's publication of the Retail Credit Institute of America, quoted Edmund W. Thomas, president of the First National Bank of Gettysburg, on the front page of its December issue under the heading, "Banker Spurns Crutches."

Today's Talk

THEY WILL TALK ANYWAY
I saw the subject of this talk cut into a wooden board that hung above the porch of The Roycroft Inn at East Aurora, N. Y., when I once visited that famous Elbert Hubbard place.

I thought of its true philosophy even though it did make me smile as I read it.

Yes, they will talk anyway — no matter how hard you try to do something worth while or very much out of the ordinary.

We all spend too much time worrying about what someone else is going to think about what we do, whereas every man and woman should endeavor to do the thing he or she thinks is best and the right thing to do.

They will talk anyway! Let them talk.

Just the minute that one tries to defend his action, he gets into trouble. Actions are either good or bad and results can only decide their merit.

The surest test for an action is found in how it makes you feel. Nobody feels good after having done anything that hurts someone else.

But we can't judge the actions of others. Because we are unable to delve into motives or to fathom them to their rootings.

To gossip is to spread poison. To talk about someone we know nothing about is to prostitute our intelligence.

Your own feelings are always an accurate gauge.

Mobs never rule. And the bystander isn't a just judge. If you believe a thing, stick it out. Ride your ideas to their journey's end. Never mind the comments.

They will talk anyway.

An excerpt from a speech given by Mr. Thomas before the McKean county bankers' association in November, the quotation follows:

"If we are to retain and preserve the privately chartered dual system of unit banks that has meant so much to the free enterprise system, banks will do well to remember that no system can or will remain permanently strong that is propped up with 'credit crutches.'"

"Chartered to serve the deposit and sound loan needs of the people of their respective communities, banks are essentially and traditionally of the people. Dr. Stoner Is Badly Hurt In Car-Bus Crash: Two motorists were injured in accidents late Friday afternoon and early this morning attributed to the icy condition of the highways. Both are in the Warner hospital with extensive injuries.

Most seriously injured is Dr. David C. Stoner, 409 York St., whose car was involved in two accidents. While driving on the Fairfield-Ortanna road at 4:35 p.m. Friday afternoon, his car and a bus operated by George J. Kint, Iron Springs, collided.

Dr. Stoner suffered a cerebral concussion, a compound fracture of the nose, strain and bruises of the back, a deep laceration of the right hand, sprained left hand and lacerations of the right knee and lip.

State police, who investigated the accident, estimated damage to Dr. Stoner's car at \$1,000 and to the bus \$500.

THAW BRINGS FLOOD THREAT TO ENGLAND

By ANTHONY WHITE

LONDON (AP) — A dripping thaw spread across southern England today, promising relief from the deep freeze engulfing the country since Christmas.

The thaw brought a new threat, of severe flooding, as deep snow began to melt in the south. And an old enemy, fog, blanketed wide areas of Surrey, Kent and Sussex.

London also woke to traditional fog, but weather men forecast that it would drift away during the day.

Subfreezing temperatures still held parts of western and northern Britain in their grip. More snow fell early today in Herefordshire and Scotland.

But for the first time since the century's worst snow began Dec. 26, several counties in the south and in the Midlands reported all highways were passable.

USE ICEBREAKERS

The snowline still spread far into Western Europe.

A steady fall drifted down on Frankfurt, and there was no traffic beyond the city borders. It rained, too. Icebreakers kept the Rhine open to shipping.

Heavy snow also fell in Vienna, and there was a danger of avalanches in the Austrian Alps.

Drifting snow blocked many roads in Denmark.

The industrial center of Lille, in northern France, was virtually paralyzed because of ice-covered roads. Snow isolated several villages in the Calais area.

Norwegians huddled up against their third coldest winter of the 20th century.

Subfreezing temperatures were reported from all over Sweden. In southern Sweden snow halted traffic.

HOLD POWELL RITES FRIDAY

HOLLYWOOD (AP) — Many famous Hollywood personalities were expected to join hundreds of ordinary movie and television fans Friday at memorial services for actor Dick Powell in nearby Beverly Hills.

The police department assigned extra officers to control the crowd at All-Saints Episcopal church where the funeral will be.

Powell, a many-sided giant of the entertainment world, died Wednesday night of cancer.

He was 58. He died at his Beverly Hills apartment as his wife, actress June Allyson, sat at his side.

Powell's remains were to be cremated at Forest Lawn Memorial Park — at the same hour the memorial services were being held.

Powell's death came five hours after the death of another Hollywood celebrity, actor Jack Carson, who died at his suburban home, also of cancer.

Three weeks ago two other famous actors, Charles Laughton and Thomas Mitchell, also died of cancer.

He gave up the post as local observer for reasons of health.

The new observer is Hugh C. McIlhenny of The Gettysburg Times news staff. His appointment was recommended by Dr. Stewart when he submitted his resignation.

A Lovelier You

By MARY SUE MILLER

EVERYBODY'S EXERCISE. A lovely writes: So much is said these days about the need for people to walk more. But I cannot

help wondering if walking is as beneficial as other forms of exercise. What do you say?

The answer: It is thought that there is more profit to one's health and appearance in a brisk daily walk than in sporadic attempts at other kinds of exercise—an occasional tennis game, for instance. Only regular workouts are resultful.

Besides, spurts of strenuous exercise may be taxing, even to the young. Mature people should avoid them. For both safety and enjoyment, one should work up to vigorous exercise and then keep in training.

Walking makes no such demands. It's everybody's sport and doesn't cost a thing. To speak purely from the feminine viewpoint, the walking habit promises fresher color, firmer muscles and calmer nerves. It also aids in measurement control. But to garner all those pluses, your walk has to be first-rate. Here's how to make it so:

● Wear well-fitted walking shoes (not loafers or pumps) . . . Proceed at a brisk, even pace . . . Breathe deeply and rhythmically . . . Maintain pulled up posture, with the stomach drawn in and the hips drawn down . . . Work for a light tread by extending the leg and ankle well with each step, and by letting the heel just skim the ground . . . Enjoy the sights along the way but do not lose sight of the fact that you are out to exercise.

That way you will get, feel and see the good of a good walk.

Drifting snow blocked many roads in Denmark.
The industrial center of Lille, in northern France, was virtually paralyzed because of ice-covered roads. Snow isolated several villages in the Calais area.
Norwegians huddled up against their third coldest winter of the 20th century.
Subfreezing temperatures were reported from all over Sweden. In southern Sweden snow halted traffic.

THAW BRINGS FLOOD THREAT TO ENGLAND
By ANTHONY WHITE
LONDON (AP) — A dripping thaw spread across southern England today, promising relief from the deep freeze engulfing the country since Christmas.
The thaw brought a new threat of severe flooding, as deep snow began to melt in the south. And an old enemy, fog, blanketed wide areas of Surrey, Kent and Sussex.
London also woke to traditional fog, but weather men forecast that it would drift away during the day.
Subfreezing temperatures still held parts of western and northern Britain in their grip. More snow fell early today in Herefordshire and Scotland.
But for the first time since the century's worst snow began Dec. 25, several counties in the south and in the Midlands reported all highways were passable.

USE ICEBREAKERS
The snowline still spread far into Western Europe.
A steady fall drifted down on Frankfurt, and there was no traffic beyond the city borders. It rained, too. Icebreakers kept the Rhine open to shipping.
Heavy snow also fell in Vienna, and there was a danger of avalanches in the Austrian Alps.

HOLD POWELL RITES FRIDAY
HOLLYWOOD (AP) — Many famous Hollywood personalities were expected to join hundreds of ordinary movie and television fans Friday at memorial services for actor Dick Powell in nearby Beverly Hills.
The police department assigned extra officers to control the crowd at All-Saints Episcopal church where the funeral will be.
Powell, a many-sided giant of the entertainment world, died Wednesday night of cancer.
He was 58. He died at his Beverly Hills apartment as his wife, actress June Allyson, sat at his side.
Powell's remains were to be cremated at Forest Lawn Memorial Park — at the same hour the memorial services were being held.

Powell's death came five hours after the death of another Hollywood celebrity, actor Jack Carson. Carson, who died at his suburban home, also of cancer, will be buried Saturday.
Three weeks ago two other famed actors, Charles Laughton and Thomas Mitchell, also died of cancer.

A Loveliest You
By MARY SUE MILLER
EVERYBODY'S EXERCISE.
A lovely writes: So much is said these days about the need for people to walk more. But I cannot

help wondering if walking is as beneficial as other forms of exercise. What do you say?
The Answer: It is thought that there is more profit to one's health and appearance in a brisk daily walk than in sporadic attempts at other kinds of exercise—an occasional tennis game, for instance. Only regular workouts are resultful.
Besides, spurts of strenuous exercise may be taxing, even to the young. Mature people should avoid them. For both safety and enjoyment, one should work up to vigorous exercise and then keep in training.
Walking makes no such demands. It's everybody's sport and doesn't cost a thing. To speak purely from the feminine viewpoint, the walking habit promises fresher color, firmer muscles and calmer nerves. It also aids in measurement control. But to garner all those plusses, your walk has to be first-rate. Here's how to make it so:
● Wear well-fitted walking shoes (not loafers or pumps) . . . Proceed at a brisk, even pace . . . Breathe deeply and rhythmically . . . Maintain pulled up posture, with the stomach drawn in and the hips drawn down . . . Work for a light tread by extending the leg and ankle well with each step, and by letting the heel just skim the ground . . . Enjoy the sights along the way but do not lose sight of the fact that you are out to exercise.

That way you will get, feel and see the good of a good walk.

LOOK FORWARD TO SPLITTING BOWL RECEIPTS
By JACK HAND
Associated Press Sports Writer
NEW YORK (AP) — There's no business like bowl business for football teams in the Southeastern Conference. Five of the brethren participated in the holiday festivities and four won.
Alabama, Louisiana State and Mississippi, all winners, each took home a little over \$100,000 as their share of the proceeds. Florida received about \$90,000 from its Georgia Tech victory over Penn State. Georgia Tech, the lone loser, Missouri in the Bluebonnet Bowl at Houston, went away with about \$85,000.

The exact financial figures are not available in many instances but officials have given estimates of what to expect.
NOT UNTIL MAY
For instance, the final Rose Bowl figures will not be released until May. Tournament of Roses officials estimate the total should be higher than last year's \$1,004,000 from all sources. After the tournament takes out 25 per cent for rent and game expenses, the remainder — approximately \$730,000 — is split 50-50.
Each conference gives the conference office a small amount for expenses and then divides the remainder equally among all teams in the conference. The competing teams, Wisconsin and Southern California, get no more than the other conference members. Wisconsin has to split it 10 ways in the Big Ten. There are six members in the Athletic Association of Western Universities.
As all the SEC schools get a piece of each other's bowls, Alabama, LSU and Mississippi probably will wind up with about \$120,000 each.

Kepner, Koerner Spark Bullets To 72-58 Win Over Mules; Face Lehigh

Doug Kepner, 6'6" center, and Ted Koerner rammed through a total of 37 points to pace the Gettysburg College Bullets to a 72-58 win over Muhlenberg here Thursday evening in a Middle Atlantic Conference university division battle before a small crowd of 800 fans.

Playing without the services of ace sharp-shooter Sophomore George Strouse, the Bullets captured the lead at 11:59 of the first half and were never headed the remainder of the contest. Strouse came down with a virus and was confined to his bed.

Dick Hofmann, who replaced Strouse in the starting lineup and played half of the game, collapsed enroute to the dressing room due to virus and is now also in the infirmary.

With 8:01 gone by in the first half, Kepner swished a pair of corner jump shots and Dick Hofmann followed with a lay-up to put the host team in front 13-8. Muhlenberg cut the Bullets' margin to 29-23 with 1:14 remaining in the first 20 minutes on Gary Spengler's jump from the left of the key. In the final 30 seconds, Koerner, Jim Walker and Kepner ripped the cords for five tallies to give the Bullets a 34-28 lead at intermission.

BULLETS PULL AWAY

Koerner, Gaekler and Szegda broke loose in the first five minutes of the second half to pace Gettysburg to a 42-31 lead. From this point on the Bullets gradually pulled away. Coach Bob Hutten cleared his bench during the final seven minutes of the contest.

Kepner turned in one of his finest games as he hit on seven of 11 field attempts and two for three from the foul line for 16 tallies. Koerner topped all scorers with 21 counters. Kepner was also the Bullets' leading rebounder with 11. Gettysburg had another good night from the charity line as it connected on 14 of 18 free throws for 78 per cent. The Bullets are currently tied for 15th in the nation with 74 per cent.

Roger Stuhlmiller topped the Mules with 17 points followed by John Ponchak and Bill Jones each with 13. Stuhlmiller, one of the leading rebounders in the country, took top honors with 18 to bring his season's total to 90 in six games.

The Bullets are now 4-2 on the season and 2-1 in the conference while Muhlenberg is sporting a 2-4 mark and are winless in their two MAC games.

FRESHMAN WIN

Coach John Carpenter's Gettysburg Freshmen had a tough time pulling away, but managed to

step back into the win column with a 64-45 decision over the Mule JV's in the preliminary. High scoring Bob Morris was held to put eleven points as Dave Yates topped the order with 17. Bob Koehler tallied eleven for the Little Mules.

The Bullets will journey to Bethlehem Saturday night to meet Lehigh in another conference tilt. The respective freshman teams will square off in the preliminary game.

ASK BOOST IN NONRESIDENT HUNTING FEES

HARRISBURG (AP)—The State Game Commission will ask the 1963 legislature to boost resident and non-resident hunting license fees in an effort to bolster sagging revenues.

M. J. Golden, executive director of the commission, said Thursday the current plan calls for a \$2.10 increase in resident fees, to \$5.25, and a 5.25 raise in nonresident fees, to \$25.25.

The boost should produce about \$1.5 million in additional revenue to finance commission programs, Golden estimated.

NEED MONEY

However, the \$1.10 antlerless deer hunting fee and the \$2 archery fee will not be affected.

The proposed increase was the highlight of the commission's annual January meeting Thursday. If approved, it would be the first increase in hunting license fees in Pennsylvania since 1949.

"The extra money is sorely needed if the commission is to maintain its programs and meet growing pressure for services," Golden declared after the meeting.

He also noted that Pennsylvania's present license scale is the lowest of all but two states east of the Mississippi—Delaware and Indiana.

"And they don't have much hunting," he added.

Golden also noted that the state's public-owned hunting lands represent the largest statewide system of hunting areas in the nation.

Asked if he anticipated any serious opposition to the proposal, Golden replied:

"There is always resistance to any increase in fees, but I am happy to note that the organized sportsmen's clubs of the state have endorsed an identical plan. They are conscious of the growing need for additional revenue, just as we are."

In other action the commission: Set these tentative opening dates for 1963 game seasons: archery, Oct. 7 small game, Nov. 2; bear, Nov. 25; deer, Dec. 2.

—Elected Herbert L. Buchanan, Franklin, president of the commission, and named these other officers: Nicholas Biddle, Beth Ayres, vice president James A. Thompson, Pittsburgh, secretary.

CINCINNATI RUNNERS-UP WIN 2 GAMES

By THE ASSOCIATED PRESS

Chicago Loyola's fast-stepping Ramblers and Bradley's always-the-bridesmaid Braves are gunning for the same rival—Cincinnati.

The Ramblers, currently second to Cincinnati in the national college basketball rankings, are after that top rating. And the Braves, who've finished right behind the Bearcats in the Missouri Valley Conference for five straight seasons, are looking to shake the runner-up role this year.

Both took forward strides Thursday night. All-winning Loyola, a whirlwind 100-point-a-game outfit, went over the century mark for the seventh time in posting its 12th victory of the season, 103-59 over Marshall. Bradley opened its conference schedule with a 72-38 upset of Tulsa.

In other highlights—Miami of Florida's unbeaten Hurricanes won their ninth in a row, 67-59 over St. John's of New York; West Virginia remained atop the Southern Conference, struggling past VMI 86-74; and the Southwest Conference scramble opened with the defending co-champions, Texas Tech and Southern Methodist, having contrasting results. Tech won for the first time in nine starts this season, shading Texas Christian 69-66, while Arkansas nipped SMU 73-71.

Layoff Endangers Workman's Record

NEW YORK (AP)—There does not seem to be any immediate race for team scoring honors, but Nick Werkman of Seton Hall may have difficulty holding on to his top spot in the race for individual major college basketball scoring honors.

Werkman, who has played only four games this season, was idle last week so his 36.0 average per game did not change, while his two closest pursuers and six of the next nine improved their marks.

Leading the attack on the Seton Hall star's top rating are Barry Kramer of New York University with a 29.9 average and Eddie Miles of Seattle, at 29.7.

Five others, Bill O'Connor of Canisius, Sandy Williams of St. Francis, Pa., Art Heyman of Duke, Bill Bradley of Princeton and Bill Green of Colorado State U. are averaging 25 or more a game.

Injured Skater Is Leading Goalie

By THE ASSOCIATED PRESS

The man behind the mask in the Montreal nets is smiling.

That would be Jacques Plante, who has battled back from a respiratory ailment that sidelined him for about a month and has taken over as the National Hockey League's leading goalie while keeping the Canadiens on the move upward in the standings.

The Canadiens pulled into a second-place tie with Toronto—only four points behind first-place Chicago—by whipping Boston 4-1 in the league's lone game Thursday night. Montreal has either won or tied in its last eight games, and Plante has been kicking out shots in every one.

Canadian Teams Lack U.S. Talent

OTTAWA (AP)—Coach Frank Clair of the Ottawa Rough Riders said Thursday that Canadian professional football teams might have to operate as farm clubs for the American professional leagues in order to attract outstanding U.S. college talent.

He was talking to radio sports commentator Pat Marsden about Ottawa's failure to sign three players from Louisiana State University. The Riders were outbid on all three by the U.S. professional leagues.

"If this keeps up, I can't see any other way that Canada can survive in getting top players," he said.

National Hockey League Thursday's Result: Montreal 4, Boston 1. No games today.

Saturday's Games: New York at Montreal. Boston at Toronto.

DISPUTE UP AT ANNUAL NCAA CONVENTION

By DON WEISS

Associated Press Sports Writer

LOS ANGELES (AP)—The National Collegiate Athletic Association opens its 57th annual convention today with the more-better-than-ever amateur sports dispute with the Amateur Athletic Union sure to occupy most of the attention.

Strictly college matters, whether routine or significant, usually dominate this annual meeting of nearly 2,000 of the nation's college and university representatives seem certain to be relegated to the background.

The reason The again fierce tussle between the nation's two powerful amateur athletic bodies that threatens to ruin the make-up of U.S. teams for international competition, including the Pan American Games in Brazil this spring and the Olympics in Tokyo next year.

TRUCE SHATTERED

An apparent "truce" settlement of less than two months ago has been shattered in a maze of confusion, charges and counter-charges over what was agreed upon. The main item is whether agreement was reached as part of a merger plan calling for a coalition in track and field that would apply for international recognition to replace the AAU as the U.S. governing body in the sport after the Tokyo Games. The NCAA-supported Track and Field Federation says yes; the AAU says no, and adds never.

With the break between the groups again as wide as ever, President Kennedy has stepped in, following up the lead of his brother, the attorney general, and has delegated Gen. Douglas MacArthur as mediator. And although both sides have accepted the President's appeal for arbitration before Gen. MacArthur, the situation is not what it may seem at first glance.

The AAU will arbitrate only with the NCAA. It has insisted it will not sit down with the year-old U.S. Track and Field Federation, which the AAU calls a "puppet" of the NCAA. The Federation says it will arbitrate with the AAU. The NCAA, which considers itself only a part of the federation structure, says it will not arbitrate individually with the AAS.

NEW DEVELOPMENT

On the eve of the week-long convention here, which runs concurrently with meetings of the nation's football, track and baseball coaches, the situation flared again with disclosure that the NCAA is proposing legislation to back up recommendations that could all but eliminate collegiate participation in the AAU-sanctioned indoor track season.

On the agenda for a business session next Wednesday is an amendment to the NCAA bylaws that, in effect, would knock a collegiate out of the NCAA Track and Field Championships if he enters an open event not sanctioned by the Track and Field Federation.

Raiders Buy Chance To Acquire Baker

OAKLAND (AP)—For an undisclosed price, the Oakland Raiders have obtained the chance to try to sign All-America Terry Baker, winner of the Heisman Trophy as the nation's outstanding 1962 college football player.

The American Football League draft rights had been held by the San Diego Chargers, who drafted the left-handed Oregon State star 12th. The Los Angeles Rams made Baker their first choice in the National Football League draft.

Neither Oakland general manager Wes Fry nor San Diego Coach Sid Gillman would disclose what the Raiders gave up to get draft rights to Baker.

Big Spring Wins To Tie Warriors

Big Spring pulled into a tie with Gettysburg High School for first place in the Blue Mountain Basketball League by clobbering Newport 75-19 Thursday evening at Neville. The game was a make-up of the postponement from December 21.

It was the fifth straight win in the league by the Bulldogs who now sport an overall record of 8-1, the lone loss being to Chambersburg.

The Big Spring jayvees romped to an 89-17 victory in the preliminary.

5 MORE GRID GAMES BOOKED OVER WEEKEND

By THE ASSOCIATED PRESS

Football's far-flung post-season extravaganzas continue this weekend with professional and college stars in five games from Florida to Hawaii.

Two games are set for Saturday—the 14th annual Senior Bowl at Mobile, Ala., between North and South all-star teams, and the first Challenge Bowl at Corpus Christi, Tex., pitting stars from the Southwest Conference against players from other college squads. On Sunday's schedule—the National Football League Playoff Bowl at Miami between runners-up in the Eastern and Western Conferences, the Pittsburgh Steelers vs. the Detroit Lions; the 17th Hula Bowl at Honolulu, matching two college all-star teams, and the first Crusade Bowl at Baltimore, which pairs off two teams made up mostly of NFL draft choices.

50 IN SENIOR BOWL

Fifty collegians join the pay-for-play ranks in the Senior Bowl, which will be nationally televised by NBC starting at 2 p.m. EST. Those on the winning side will receive \$800 each. The losers get \$500 apiece.

Players in the Challenge Bowl also turn pro, with \$800 going to each member of the winning team and \$600 to each loser.

The Steelers will be trying to even a score in their Playoff Bowl date with the Lions, who swamped Pittsburgh 45-7 in the regular season opener. This one will be televised by NBC at 2 p.m. EST.

5 ALL-AMERICANS

A glittering parade of talent will be on display in Honolulu Sunday. There are five All-Americans on the North team—ends Pat Richter of Wisconsin and Dave Robinson of Penn State, tackles Bobby Bell of Minnesota and Don Brumm of Purdue and fullback George Saines of Michigan State—and two on the South squad—halfback Jerry Stovall of LSU and guard Johnny Treadwell of Texas.

Even with this crop of All-Americans, attention is likely to focus on Wisconsin's Ron Vanderkelen, the Rose Bowl passing whiz. His counterpart on the South will be towering Sonny Gibbs of Texas Christian.

There are 34 NFL draftees among the 46 players who will be in the East-West Crusade Bowl. The post-season madness ends a week from Sunday, Jan. 13, with two pro affairs—the NFL Pro Bowl at Los Angeles between stars of East and West, and the American Football League All-Star Game at San Diego.

SHUE CLAIMS BIG MEN ARE RUINING GAME

By GORDON BEARD

Associated Press Sports Writer

BALTIMORE (AP)—Gene Shue of the New York Knickerbockers, a nine-year veteran of the National Basketball Association, thinks it's about time to rejuvenate the professional game.

Indicating he is at least partially in agreement with critics who say the game is dull, Shue blames tall players, excessive fouling and judgment calls by officials.

"Big men are killing the game," Shue said before Thursday night's game with the Syracuse Nationals. "We ought to take the game back outside from under the basket."

SUGGESTS CHANGES

Shue, who at 6-foot-2 is one of the smaller players in the league, scored 18 points as the Knicks held off a last quarter rally and defeated Syracuse 123-115.

To help unclutter the traffic under the basket, Shue advocates taking a cue from the defunct American Basketball League and award more than two points for shots from long distances.

The ABL awarded three points for field goals of 25 feet or longer.

CUT FOULS DOWN

Shue also proposed several changes to help cut down on the number of fouls, which he called "the biggest difficulty" of the pro game.

He suggested that players be ejected from the game after committing four fouls, rather than the six now allowed, and that two free throws be awarded for all fouls.

The Knicks backcourt star also suggested the rule makers spell out personal fouls more clearly, cutting down on the number of judgment calls by officials.

'63 PIRATES BEST IN 7YRS.

PITTSBURGH (AP)—Joe L. Brown said Thursday he believes the 1963 edition of the Pittsburgh Pirates will be the best in his seven years as general manager.

He predicted that the squad will be better than the 1960 club that won the National League pennant and beat the New York Yankees in the World Series.

In trades after the 1962 season, Brown dealt shortstop Dick Groat to St. Louis, first baseman Dick Stuart to Boston and third baseman Don Hoak to Philadelphia.

Among the players picked up in the deals were pitcher Don Cardwell and infielder Julio Gotay from St. Louis, pitcher Don Schwall from Boston and outfielder Ted Savage from the Phils.

"We have six starting pitchers now," said Brown. "Besides Cardwell and Schwall, Danny (manager Danny Murtaugh) has Bob Friend, Al McBean, Earl Francis and Joe Gibbon to call on. And there's Roy Face, Harvey Haddix, Tom Sturdivant, Vernon Law, Bob Veale and Bob Priddy."

Kepner, Koerner Spark Bullets To 72-58 Win Over Mules; Face Lehigh

Doug Kepner, 6'6" center, and Ted Koerner rammed through a total of 37 points to pace the Gettysburg College Bullets to a 72-58 win over Muhlenberg here Thursday evening in a Middle Atlantic Conference university division battle before a small crowd of 800 fans.

Playing without the services of ace sharp shooter Sophomore George Strouse, the Bullets captured the lead at 11:59 of the first half and were never headed the remainder of the contest. Strouse came down with a virus and was confined to his bed.

Dick Hofmann, who replaced Strouse in the starting lineup and played half of the game, collapsed enroute to the dressing room due to virus and is now also in the infirmary.

With 3:01 gone by in the first half, Kepner swished a pair of corner jump shots and Dick Hofmann followed with a lay-up to put the host team in front 13-8. Muhlenberg cut the Bullets' margin to 21-28 with 1:14 remaining in the first 20 minutes on Gary Spengler's jump from the left of the key. In the final 39 seconds, Koerner, Jim Walker and Kepner ripped the cords for five tallies to give the Bullets a 34-28 lead at intermission.

BULLETS PULL AWAY

Koerner, Gaekler and Szegda broke loose in the first five minutes of the second half to pace Gettysburg to a 42-31 lead. From this point on the Bullets gradually pulled away. Coach Bob Hulton cleared his bench during the final seven minutes of the contest.

Kepner turned in one of his finest games as he hit on seven of 11 field attempts and two for three from the foul line for 16 tallies. Koerner topped all scorers with 21 counters. Kepner was also the Bullets' leading rebounder with 11. Gettysburg had another good night from the charity line as it connected on 14 of 18 free throws for 73 per cent. The Bullets are currently tied for 15th in the nation with 74 per cent.

CINCINNATI RUNNERS-UP WIN 2 GAMES

By THE ASSOCIATED PRESS
Chicago Loyola's fast-stepping Ramblers and Bradley's always-the-bridesmaid Braves are gunning for the same rival—Cincinnati.

The Ramblers, currently second to Cincinnati in the national college basketball rankings, are after that top rating. And the Braves, who've finished right behind the Bearcats in the Missouri Valley Conference for five straight seasons, are looking to shake the runner-up role this year.

Both took forward strides Thursday night. All-winning Loyola, a whirlwind 100-point-a-game outfit, went over the century mark for the seventh time in positing its 12th victory of the season, 103-58 over Marshall. Bradley opened its conference schedule with a 72-58 upset of Tulsa.

In other highlights—Miami of Florida's unbeaten Hurricanes won their ninth in a row, 67-59 over St. John's of New York; West Virginia remained atop the Southern Conference, struggling past VMI 86-74; and the Southwest Conference scramble opened with the defending co-champions, Texas Tech and Southern Methodist, having contrasting results. Tech won for the first time in nine starts this season, shading Texas Christian 69-66, while Arkansas nipped SMU 73-71.

Layoff Endangers Workman's Record

NEW YORK (AP)—There does not seem to be any immediate race for team scoring honors, but Nick Werkman of Seton Hall may have difficulty holding on to his top spot in the race for individual major college basketball scoring honors.

Werkman, who has played only four games this season, was idle last week so his 38.0 average per game did not change, while his two closest pursuers and six of the next nine improved their marks.

Leading the attack on the Seton Hall star's top rating are Barry Kramer of New York University with a 29.9 average and Eddie Miles of Seattle, at 29.7.

Five others, Bill O'Connor of Canisius, Sandy Williams of St. Francis, Pa., Art Heyman of Duke, Bill Bradley of Princeton and Bill Green of Colorado State U. are averaging 25 or more a game.

Canadian Teams Lack U.S. Talent

OTTAWA (AP)—Coach Frank Clair of the Ottawa Rough Riders said Thursday that Canadian professional football teams might have to operate as farm clubs for the American professional leagues in order to attract outstanding U.S. college talent.

He was talking to radio sports commentator Pat Marsden about Ottawa's failure to sign three players from Louisiana State University. The Riders were outbid on all three by the U.S. professional leagues.

"If this keeps up, I can't see any other way that Canada can survive in getting top players," he said.

G-BURG OPENS SWIM SEASON ON SATURDAY

The Gettysburg College swimming team will inaugurate its 1963 swimming season Saturday afternoon when it meets American University in a 2 p.m. meet in Washington.

Coach Curt Coull, starting his third season at the Gettysburg helm, will have five returning lettermen to form the nucleus for this year's squad. Scott Ashman, Pittsburgh, heads the list of veterans. The junior diver sailed through the 1962 campaign with an impressive 9-1 record, smashing both the school and pool records. He was runner-up in the annual Middle Atlantic Conference championships.

Also on hand to bolster the team will be free stylists Clyde Betts, Bristol, and Curt Cheyne, Havertown. Both are Juniors. Bob Durst, Munhall, heads the list of backstrokers while Bill Lohrentz, Pittsburgh, tops the breaststroke list.

The Bullets' young roster is free of seniors and will have nine strong sophomores on the 15-man team. Among the newcomers are such standouts as Avery Gentle, Ithaca, N. Y., backstroke; Pete Wilson, powerful sprinter from white Plains, N. Y., and Rudy Socoy, Trenton, N. J., who is expected to give Ashman a run in the diving department.

Coull says that his team is still a year away from an eye catching season, but in the same breath feels that his swimmers will certainly improve upon last year's 2-7 record.

STAN MUSIAL SIGN UP FOR 22ND SEASON

ST LOUIS (AP)—The St. Louis Cardinals may never be quite as colorful when Stan Musial retires from baseball, but the change won't happen this year—and may be not in 1964 either.

The 42-year-old Cardinal star signed his 22nd contract with the club Thursday and indicated from the way he feels now, he may be around at this time next year to sign No. 23.

"I've never felt better," said the trim Musial, who played in 135 games last year and hit .330. His best mark since 1958, "If I have a good year I'll keep on playing."

STARTED AS PITCHER

"I've been playing on a year-to-year basis and I'd like to keep it that way. I'd like to keep playing if I can help the team."

"My weight is down and I'm in better shape than I was last year. I think I can play 100 games again—if I'm going well."

Musial signed his first contract as a pitcher back in 1938 for \$65 a month. The latest one he signed calls for an estimated \$65,000, about the same as last year. This latest contract gives him a total of approximately \$1,250,000, the most any player has earned in salary in baseball history.

NEEDS 2 HITS

More on his mind right now is the two singles he needs to become the first player to total 6,000 total bases. And three more doubles will tie Babe Ruth's total of 1,356 on extra base hits.

STATE'S AUDIT FINDS FLAWS IN SCHOOL BOARD PROCEDURES

Recommendations for the improvement of procedures by the Littlestown Joint School District and its member districts on the basis of an examination of school records for the school year which ended July 5, 1959, are included in a report from the office of the state auditor general.

The audit, conducted by Auditor General Thomas Z. Minehart, is reported upon by John A. Corde, regional supervisor.

The recommendations, which reached their greatest number in the report on Mt. Joy Twp., are similar to those made in many other school districts and school officials said that many of the practices complained of have been corrected some time ago. There have been changes in board personnel since the period covered by the report, it was noted.

MT. JOY LIST LONGER

The report on the audit of the joint board account showed that transfer of funds from one account to another where over-expending occurred was not done in accordance with state school law. It is also recommended that the school depositary was not required to furnish collateral to cover deposits of school money and school board minutes did not show that public notice was given on the proposed budget.

The report on Mt. Joy Twp. showed that checks bore no notation for the class of expenditures for which they were drawn; the depositary was not required to furnish bond collateral on school accounts, and did not furnish monthly reports; receipt of merchandise and mathematical verification was not noted on invoices; cash journal entries were not made in permanent form and not all were dated; and no books of account were kept by the board. The state auditor suggested use also of authenticated duplicate deposit slips and re-

cording each check separately in the cash expenditure book.

Flaws detected in the check on the Littlestown borough district showed no surety bond was carried on the secretary and treasurer and transfers of funds from one department to another were not made in accordance with state law. The school depositary was not required to furnish collateral, the state also noted.

OTHER DISTRICTS

In the report on Germany Twp. the state auditors found no surety bond was carried on the secretary or treasurer and that fund transfers between departments were not handled properly. The depositary was not required to post collateral to cover school funds and the school board minutes did not contain complete information regarding public notice of the proposed budget.

In Union Twp. minutes were found incomplete regarding votes on temporary loans and failed to show that board took required action on the transfer of funds between departments of the budget to cover over-expenditures. The depositary was not required to post collateral on school accounts and was not required to furnish monthly statements. The minutes also failed to show public notice was given of the proposed budget.

In Union Twp. minutes failed to record majority votes on temporary loans and did not show action to shift funds between departments to cover over-expenditures. The depositary was not required to furnish collateral to cover school accounts and the depositary did not furnish monthly statements. The minutes failed to show public notice was given of the proposed budgets as required by state law.

Copies of the state auditor's findings have been sent to the districts involved and a copy was sent to The Gettysburg Times.

STATE'S AUDIT FINDS FLAWS IN SCHOOL BOARD PROCEDURES

Recommendations for the improvement of procedures by the Littlestown Joint School District and its member districts on the basis of an examination of school records for the school year which ended July 5, 1959, are included in a report from the office of the state auditor general.

The audit, conducted by Auditor General Thomas J. Minehart, is reported upon by John A. Corde, regional supervisor.

The recommendations, which reached their greatest number in the report on Mt. Joy Twp., are similar to those made in many other school districts and school officials said that many of the practices complained of have been corrected some time ago. There have been changes in board personnel since the period covered by the report, it was noted.

MT. JOY LIST LONGER

The report on the audit of the joint board account showed that transfer of funds from one account to another where over-expending occurred was not done in accordance with state school law. It is also recommended that the school depository was not required to furnish collateral to cover deposits of school money and school board minutes did not show that public notice was given on the proposed budget.

The report on Mt. Joy Twp. showed that checks bore no notation for the class of expenditures for which they were drawn; the depository was not required to furnish bond collateral on school accounts, and did not furnish monthly reports; receipt of merchandise and mathematical verification was not noted on invoices; cash journal entries were not made in permanent form and not all were dated; and no books of account were kept by the board. The state auditor suggested use also of authenticated Wantz, Jack E. Rebert and duplicate deposit slips and re-Bobby Nester.

Clergymen To Discuss Race Injustices

By EDWARD S. KITCH

CHICAGO (AP)—Racial injustice will be a much-discussed subject in Chicago Jan. 14 when clergymen of major faiths convene at the Edgewater Beach Hotel for a four-day meeting. For the first time, the National Conference on Religion and Race will bring together all major

churches to form a united attack on the problem of racial injustice. The conference may have far-reaching—though perhaps not immediately discernible—effect on the social climate of the United States.

PLAN DECLARATION

The immediate result will be the hammering out of a "declaration of conscience" which will go out as the word from the leaders of most of this country's churches.

A planning committee is producing recommendations for the consideration of the conference as to follow-up action on national and local levels.

Those attending the conference will include officials of the Na-

tional Council of Churches, the Synagogue Council of America and the National Catholic Welfare Conference.

More than 60 religiously affiliated national organizations have indicated they will be represented by delegates at the conference.

STUDY CHURCH ROLE

Chairman of the conference will be the Rev. Dr. Benjamin E. Mays, president of Morehouse College in Atlanta, Ga.

The vice chairmen will be the Right Rev. Germanos Psallidakis, bishop of Synodon and head of the Greek Orthodox See in Detroit, Mich.; the Most Rev. Paul J. Hallinan, archbishop of Atlanta; Rabbi Ferdinand M. Isserman of

Temple Israel, St. Louis, and Bishop Julian Smith, presiding bishop of the First Episcopal District of Christian Methodist Episcopal Church.

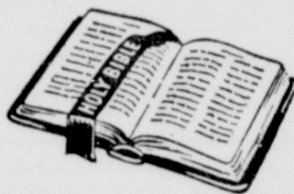

The planners of the conference said it is being convened "to provide an occasion for lay and clerical religious leaders to conduct a concrete examination of the role of the churches and synagogues in meeting religious and civic racial problems."

Actually an embroidery, and not a tapestry, the famous Bayeux Tapestry documents the story of the Norman Conquest of England, and is believed to date from the 11th Century.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Jimmy was so fascinated by his new goldfish that we thought he'd forgotten about the other one. Then, suddenly, he looked up and asked, "Mommy, will this one die too?"

I tried, as gently as I could, to tell him that, in time, all things die. And as I did so, I realized how valuable it is for a child to have even as small a pet as a goldfish. For in observing a pet — even in suffering the loss of one — a child begins to learn a great deal about life, in a natural and understandable way.

But I warned myself, it is important to realize that he is learning only the *visual*, material part of the lesson. In order to understand what he is seeing, and what he is feeling, he must be taught its spiritual meaning. This is why religious education is so important. That is why Jimmy attends church with us . . . and he'll start church school, next fall.

Clergymen To Discuss Race Injustices

By EDWARD S. KITCH

CHICAGO (AP)—Racial injustice will be a much-discussed subject in Chicago Jan. 14 when clergymen of major faiths convene at the Edgewater Beach Hotel for a four-day meeting. For the first time, the National Conference on Religion and Race will bring together all major

churches to form a united attack on the problem of racial injustice. The conference may have far-reaching—though perhaps not immediately discernible—effect on the social climate of the United States.

PLAN DECLARATION

The immediate result will be the hammering out of a "declaration of conscience" which will go out as the word from the leaders of most of this country's churches. A planning committee is producing recommendations for the consideration of the conference as to follow-up action on national and local levels.

Those attending the conference will include officials of the Na-

tional Council of Churches, the Synagogue Council of America and the National Catholic Welfare Conference.

More than 60 religiously affiliated national organizations have indicated they will be represented by delegates at the conference.

STUDY CHURCH ROLE

Chairman of the conference will be the Rev. Dr. Benjamin E. Mays, president of Morehouse College in Atlanta, Ga.

The vice chairmen will be the Right Rev. Germanos Psalidakis, bishop of Synodon and head of the Greek Orthodox See in Detroit, Mich.; the Most Rev. Paul J. Hallinan, archbishop of Atlanta; Rabbi Ferdinand M. Isserman of

Temple Israel, St. Louis, and Bishop Julian Smith, presiding bishop of the First Episcopal District of Christian Methodist Episcopal Church.

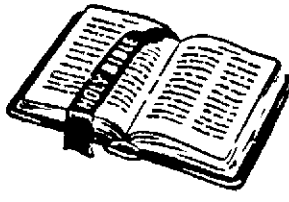

The planners of the conference said it is being convened "to provide an occasion for lay and clerical religious leaders to conduct a concrete examination of the role of the churches and synagogues in meeting religious and civic racial problems."

Actually an embroidery, and not a tapestry, the famous Bayeux Tapestry documents the story of the Norman Conquest of England, and is believed to date from the 11th Century.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NIXON TRIES TO PLAN FOR HIS FUTURE

By JOE LEWIS

BEVERLY HILLS, Calif. (AP)—Richard M. Nixon, looking tanned and fit, is living at a relaxed pace these days—playing golf and spending more time with his family—as he ponders his future.

But his future, apparently, is just as much a question mark to the former vice president as it is to everyone else.

Robert Finch, one of Nixon's inner circle, said the man who nearly became president in 1960 is mulling this basic decision:

"Shall I speak out on public affairs? Or should I stay completely out of the public arena?"

NO QUICK ANSWER

The answer isn't expected for months.

Nixon has been in seclusion since Nov. 7, when his hopes for a political comeback were shattered in a losing bid to unseat Democratic Gov. Edmund G. Brown. At a farewell news conference, he bitterly criticized the press and said he was quitting politics.

But associates say Nixon has been getting thousands of letters, from throughout the nation encouraging him to speak out on public issues.

NOT MOPING

An aide gave this description of Nixon's current state of mind: "He's not moping around the house, second-guessing himself or blaming anyone. He's not mad at anybody."

"Financially speaking, losing the governorship was the best thing that happened to Dick. Now he's free to consider a lot of lucrative offers."

Nixon amassed a sizable financial nest egg in recent years, chiefly from writing projects.

TOOK VACATION

After the election, Nixon vacationed for three weeks in the Bahamas and Key West, Fla. He's been at home since, except for a three-day visit to New York—described by friends as a non-political trip to renew old acquaintances.

"In California," a Nixon source said, "he's regarded as the guy who got beat for the governorship. But he stopped traffic in New York."

Will he consider a job with a large corporation? "I don't think he's really interested in that," the source added, "but you can never turn your back on really big money."

However, Herbert G. Klein, for-

LAST SURVIVING QUAD SUCCUMBS

PHILADELPHIA (AP)—The last of quadruplets born Dec. 30 to the wife of an aerospace engineer died before dawn Thursday.

A spokesman at Jefferson Hospital said the lone survivor, a boy, died of weakness and extreme immaturity, the causes which took the lives of the others—two boys and a girl—with 11 hours of their birth.

The quadruplets were the first children born to Mr. and Mrs. Alvin Spector, childhood sweethearts, who married two years ago. Spector is 27, his wife, Vivian, 23. He is assigned to the U.S. Naval Air Development Center in suburban Johnsville.

Doctors at the hospital did their utmost to keep the babies alive, but said they simply were too weak to pull through. Weights ranged from one pound, nine and a half ounces to one pound, 12 1/4 ounces.

YORK SPRINGS—Leroy Fink returned home Wednesday from the Annie Warner Hospital where he had been a patient having undergone major surgery.

Mr. and Mrs. Charles Pehrson returned to their home in Greensburg on Tuesday after spending several weeks with the latter's mother, Mrs. William Feeley. They had been called home by the serious illness and death of her father.

Mr. and Mrs. Charles Koons spent the Christmas holidays with the former's parents, Mr. and Mrs. Ross Koons.

Mr. and Mrs. Roy Paar and daughter, Wanda Jean, and Joan McGonnel spent the holidays in Florida.

Mr. and Mrs. Paul Wolf and children have returned home after spending the Christmas holidays in Florida.

Mrs. Esia Coulson and her sister, Mrs. Mary French, Harrisburg, returned home Sunday after spending the week with their brother-in-law and sister, Mr. and Mrs. Harry Gabbard, and family of Connorsville, Ind. On Wednesday they accompanied a niece, Barbara Gabbard, to Christ's Hospital, Cincinnati, O., where she is a student nurse.

Donald M. Leer and children, Charlotte and Margaret, returned home Tuesday after visiting with his mother, Mrs. Calvin Leer.

Kathy Hollabaugh, daughter of Mr. and Mrs. Raymond Hollabaugh, was admitted to the Annie Warner Hospital on Christmas Day and submitted to an appendectomy operation. This week it was necessary to operate again. She is recuperating satisfactorily.

U.N. UNITS TAKE KEY POSITION FROM TSHOMBE

By ROBIN P. MANNOCK

LEOPOLDVILLE, the Congo (AP)—U.N. forces captured the important Katanga town of Jadotville today, a U.N. spokesman said. This gave the attackers a springboard for an advance on Katanga secessionist President Moise Tshombe's headquarters at Kolwezi, about 90 miles away.

Katanga forces resisting the U.N. sweep through the secessionist province had been expected to make a major stand at Jadotville, a mining center midway between Kolwezi and the fallen Katanga capital of Elisabethville.

U.N. troops stopped six miles from Jadotville Wednesday night after crossing the Lufira River on improvised pontoons and buckled girders from three bridges the Katangans had blown up. The U.N. units were forced to leave their heavy equipment behind.

LITTLE RESISTANCE

Indian, Irish and Ethiopian troops in the U.N. force took Jadotville by noon, a U.N. spokesman said. This indicated they had little resistance.

Kolwezi, 150 miles northwest of Elisabethville, is the base for most of Katanga's air force as well as temporary headquarters for Tshombe's government.

As the U.N. column moved toward Kolwezi, the United Nations prodded Tshombe to end his secession from the Congo central government.

Foreign consuls in Elisabethville, however, were reported still fearful Tshombe would carry out his threat of widespread sabotage and destruction of mining and other installations in the ore-rich province.

Correspondents in Elisabethville reported many bridges and power lines blown up. Elisabethville was without electricity.

Their reports also said Union Miniere, European-owned mining firm which digs Katanga's copper and cobalt, was hurriedly removing machinery from its refinery in Jadotville before U.N. troops arrived.

MET BY MORTARS

U.N. military commanders previously said they believed there were only about 30 mercenaries and a few hundred Katanga gendarmes in Jadotville. U.N. advances toward the town were met by desultory mortar and machine-gun fire.

Lt. Gen. Prem Chand, Indian U.N. commander in Katanga, had described the earlier fighting along the Jadotville road as the heaviest since clashes erupted into a third round of U.N.-Katanga combat last Friday.

In northwest Katanga, Ghanaians and Swedish troops from the Kamina base were sending out strong patrols to nearby villages.

Marine Convicted By Polish Court

PULAWY, Poland (AP)—U.S. Marine Sgt. James S. Chase was convicted of involuntary manslaughter by a Polish court Thursday and given a one-year suspended sentence.

The three-judge court ruled that Chase, a member of the U.S. Embassy guard, killed a Pole in an Aug. 19 highway accident by failing to watch the road properly.

Chase, 22, from Burlington, Vt., entered a plea of innocent at the outset of the trial. The U.S. Embassy had protested against the trial, claiming Chase should be given diplomatic immunity.

A party of Swedes seized the Kilubi power station still intact on the Kamina-Kabongo road.

The U.N. column had been delayed at the Lufira River, 20 miles east of Jadotville, by the destruction of road and rail bridges. One report said the column got a powerful vanguard across under heavy mortar fire.

HEAVY FIRE

Lt. Gen. Prem Chand, Indian U.N. commander in Katanga, described the fighting along the Jadotville road as the heaviest since clashes erupted into a third round of U.N.-Katanga combat last Friday.

On the financial front U.N. sources in New York said they expected Andre Van Roey, Belgian governor of the Bank of Katanga, to come to Leopoldville in a day or two for talks on dividing up Union Miniere's \$200 million-a-year foreign currency earnings.

The talks will have nothing to do with the \$40 million a year Union Miniere pays to Katanga in taxes, export duties and royalties. An earlier report from Brussels had indicated Union Miniere was prepared to discuss paying some of this fund to the central government, but sources at U.N. headquarters said this did not appear to be the case yet.

The two funds have kept Katanga afloat as a secessionist province for 2 1/2 years and would help lift a united Congo out of its present economic misery.

GOVERNOR IS SURPRISED BY NEW APPOINTEE

By JACK LYNCH

HARRISBURG (AP)—Gov. Lawrence, expressing mock surprise, twitted the incoming Scranton administration Thursday about its new mines secretary.

Tongue in cheek, the governor said he was very surprised that H. Beecher Charnbury, mines secretary-designate, had served concurrently as Centre County Republican chairman and as a member of the Pennsylvania State University faculty.

"I didn't know we had any party chairmen on the faculty," said Lawrence at his weekly news conference.

The governor laughed heartily when newsmen suggested he probably was sorry he hadn't originated the idea of party chairmen serving on school faculties.

ELUDES NEWSMEN

"I can just imagine what the newspapers would have done if Ed Litchfield had appointed Barney McGinnis to the faculty at Pitt," he said.

Edward Litchfield is chancellor of the University of Pittsburgh. Sen. Bernard (Barney) McGinnis is a Democratic state senator from Pittsburgh.

Once, at the urging of a newsman seeking a stronger headline, Lawrence professed to be "rather shocked," but later returned to the expression of surprise.

Lawrence said it also was "rather interesting" that Charnbury, who has indicated he favors the industry position in the restoring of strip mines, came from the same county as Daniel A. Bailey, newly elected Republican senator. He said Bailey is engaged in the strip mining industry.

DECLINES OTHER COMMENTS

The governor declined to comment on other cabinet appointments made by Gov.-elect William W. Scranton, adding:

"I don't want to be critical. Gov. Scranton deserves a chance. Whether his appointments are good or not will become evident in just a few months. It is the American system of fair play to turn over government harmoniously and without carping."

Lawrence also said he was not surprised that Republican senators had introduced three bills involving school district reorganization, two for repeal and one for a year's delay.

"All the politicians talk about education and I hope they will do nothing to impair the progress we've made," he said, adding:

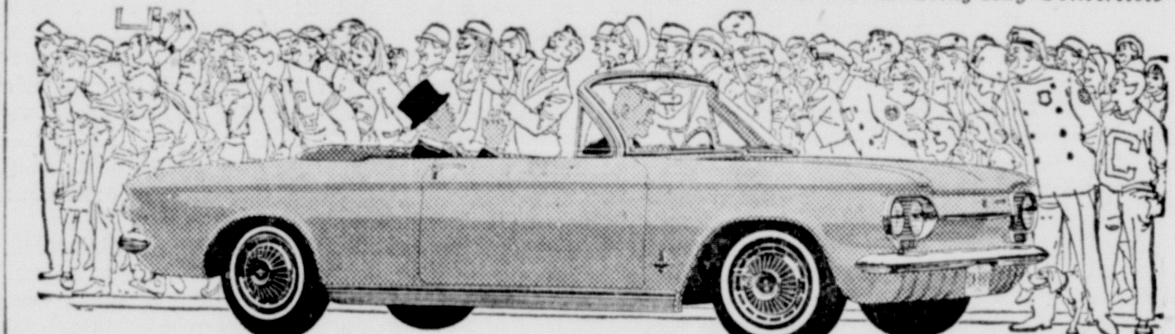

"Here's a chance (school reorganization) to save some money. And we need all we can gather together to increase teacher salaries and to do other things necessary."

NIXON TRIES TO PLAN FOR HIS FUTURE

By JOE LEWIS

BEVERLY HILLS, Calif. (AP)—Richard M. Nixon, looking tanned and fit, is living at a relaxed pace these days—playing golf and spending more time with his family—as he ponders his future.

But his future, apparently, is just as much a question mark to the former vice president as it is to everyone else.

Robert Finch, one of Nixon's inner circle, said the man who nearly became president in 1960 is mulling this basic decision:

"Shall I speak out on public affairs? Or should I stay completely out of the public arena?"

NO QUICK ANSWER

The answer isn't expected for months.

Nixon has been in seclusion since Nov. 7, when his hopes for a political comeback were shattered in a losing bid to unseat Democratic Gov. Edmund G. Brown. At a farewell news conference, he bitterly criticized the press and said he was quitting politics.

But associates say Nixon since has been getting thousands of letters, from throughout the nation encouraging him to speak out on public issues.

NOT MOPING

An aide gave this description of Nixon's current state of mind: "He's not moping around the house, second-guessing himself or blaming anyone. He's not mad at anybody."

"Financially speaking, losing the governorship was the best thing that happened to Dick. Now he's free to consider a lot of lucrative offers."

Nixon amassed a sizable financial nest egg in recent years, chiefly from writing projects.

TOOK VACATION

After the election, Nixon vacationed for three weeks in the Bahamas and Key West, Fla. He's been at home since, except for a three-day visit to New York—described by friends as a non-political trip to renew old acquaintances.

"In California," a Nixon source said, "he's regarded as the guy who got beat for the governorship. But he stopped traffic in New York."

Will he consider a job with a large corporation? "I don't think he's really interested in that," the source added, "but you can never turn your back on really big money."

However, Herbert G. Klein, for-

Foreign consuls in Elisabethville, however, were reported still fearful Tshombe would carry out his threat of widespread sabotage and destruction of mining and other installations in the ore-rich province.

Their reports also said Union Miniere, European-owned mining firm which digs Katanga's copper and cobalt, was hurriedly removing machinery from its refinery in Jadotville before U.N. troops arrived.

U.N. military commanders previously said they believed there were only about 30 mercenaries and a few hundred Katanga gendarmes in Jadotville. U.N. advances toward the town were met by desultory mortar and machine-gun fire.

Lt. Gen. Prem Chand, Indian U.N. commander in Katanga, had described the earlier fighting along the Jadotville road as the heaviest since clashes erupted into a third round of U.N.-Katanga combat last Friday.

In northwest Katanga, Ghanaians and Swedish troops from the Katanga base were sending out strong patrols to nearby villages.

Marine Convicted By Polish Court

PULAWY, Poland (AP)—U.S. Marine Sgt. James S. Chase was convicted of involuntary manslaughter by a Polish court Thursday and given a one-year suspended sentence.

The three-judge court ruled that Chase, a member of the U.S. Embassy guard, killed a Pole in an Aug. 19 highway accident by failing to watch the road properly.

Chase, 22, from Burlington, Vt., entered a plea of innocent at the outset of the trial. The U.S. Embassy had protested against the trial, claiming Chase should be given diplomatic immunity.

A party of Swedes seized the Kilubi power station still intact on the Kamina-Kabongo road.

The U.N. column had been delayed at the Lufira River, 20 miles east of Jadotville, by the destruction of road and rail bridges. One report said the column got a powerful vanguard across under heavy mortar fire.

HEAVY FIRE

Lt. Gen. Prem Chand, Indian U.N. commander in Katanga, described the fighting along the Jadotville road as the heaviest since clashes erupted into a third round of U.N.-Katanga combat last Friday.

On the financial front U.N. sources in New York said they expected Andre Van Roey, Belgian governor of the Bank of Katanga, to come to Leopoldville in a day or two for talks on dividing up Union Miniere's \$200 million-a-year foreign currency earnings.

The talks will have nothing to do with the \$40 million a year Union Miniere pays to Katanga in taxes, export duties and royalties. An earlier report from Brussels had indicated Union Miniere was prepared to discuss paying some of this fund to the central government, but sources at U.N. headquarters said this did not appear to be the case yet.

The two funds have kept Katanga afloat as a secessionist province for 2 1/2 years and would help lift a united Congo out of its present economic misery.

GOVERNOR IS SURPRISED BY NEW APPOINTEE

By JACK LYNCH

HARRISBURG (AP)—Gov. Lawrence, expressing mock surprise, twitted the incoming Scranton administration Thursday about its new mines secretary.

Tongue in cheek, the governor said he was very surprised that H. Beecher Charmbury, mines secretary-designate, had served concurrently as Centre County Republican chairman and as a member of the Pennsylvania State University faculty.

"I didn't know we had any party chairmen on the faculty," said Lawrence at his weekly news conference.

The governor laughed heartily when newsmen suggested he probably was sorry he hadn't originated the idea of party chairmen serving on school faculties.

ELUDES NEWSMEN

"I can just imagine what the newspapers would have done if Ed Litchfield had appointed Barney McGinnis to the faculty at Pitt," he said.

Edward Litchfield is chancellor of the University of Pittsburgh. Sen. Bernard (Barney) McGinnis is a Democratic state senator from Pittsburgh.

Once, at the urging of a newsmen seeking a stronger headline, Lawrence professed to be "rather shocked," but later returned to the expression of surprise.

Lawrence said it also was "rather interesting" that Charmbury, who has indicated he favors the industry position in the restoring of strip mines, came from the same county as Daniel A. Bailey, newly elected Republican senator. He said Bailey is engaged in the strip mining industry.

DECLINES OTHER COMMENTS

The governor declined to comment on other cabinet appointments made by Gov.-elect William W. Scranton, adding:

"I don't want to be critical. Gov. Scranton deserves a chance. Whether his appointments are good or not will become evident in just a few months. It is the American system of fair play to turn over government harmoniously and without carping."

Lawrence also said he was not surprised that Republican senators had introduced three bills involving school district reorganization, two for repeal and one for a year's delay.

"All the politicians talk about education and I hope they will do nothing to impair the progress we've made," he said, adding:

"Here's a chance (school reorganization) to save some money. And we need all we can gather together to increase teacher salaries and to do other things necessary."

New York Publishers May Publish Without Strikers

NEW YORK (AP) — Publishers of the city's nine major newspapers, shut down for 27 days, hint they may try to resume publication without the striking printers.

The publishers said in a statement released Wednesday night that they "must acknowledge their inability at this time to see any promise of success in a continuation of the normal processes of conciliation, mediation and collective bargaining unless there is a quick change in the position of the typographical union."

The statement said the publishers "will continue to seek by every possible method a means of resuming at the earliest date the service of their newspapers to the people of New York."

The publishers called the union's demands "economically prohibitive," and said:

EXORBITANT DEMANDS

"There is ample evidence, including statements made by typographical union officials before the strike and since, that the International Typographical Union is determined to impose on the publishers of the New York newspapers wage increases and conditions which, combined, will be beyond the earning capacity of the newspapers to sustain, and could bankrupt one or more of the city's newspapers as well as touch off a nationwide wave of increased costs in the newspaper business."

The striking AFL-CIO union dismissed the publishers' statement as "a typical" threat.

Bertram A. Powers, president of the striking ITU Local 6, said: "I consider the statement released by the publishers as a threat typical of those used by them throughout our negotiations."

PLAN 1948 METHODS

Powers said, "I personally think they will attempt to use the same methods to publish that were used by the Chicago papers back in 1948."

His reference was to a vari-type process—through which copy is typed on glossy paper, then photographed, for reproduction. The process eliminates the usual type-setting procedure performed by printers.

In Cleveland, negotiations resumed Wednesday in the 35-day-old strike that has closed the city's two dailies, the Cleveland Plain Dealer and the Cleveland Press and News. The strike is by the Teamsters Union (Ind.) and the Cleveland Newspaper Guild, a unit of the AFL-CIO American Newspaper Guild. The negotiations Wednesday were with the Guild only.

Local 6 has demanded a wage increase of \$18.45 spread over two years. The prestrike average basic wage was \$141 a week on the day shift.

After the \$9.20 offer was made, the publishers' statement said, a

tentative agreement was reached with the Deliverers' Union (Ind.) on increases of \$8.50 in wages and welfare payments over two years, plus a fourth week's vacation after 10 years' service at a total cost of \$10.

There are seven craft unions involved in negotiations.

"FALSE HOPES"

At Wednesday's talks, Amory H. Bradford, chairman of the negotiating committee of the Publishers Association of New York City issued a statement saying that unless the printers changed their position, further talks "will produce no results except to raise false hopes."

Other newspaper unions at the nine dailies have all expressed support of the printers.

Commenting further on the vari-type idea, Powers said "vari-type might be their ace card. When he (Bradford) plays it, we'll trump it."

He did not elaborate.

Joseph P. Williams, president of Uni-Serv Corp., operator of the Uni-Card Credit plan, has announced plans to begin publishing next Sunday a daily newspaper staffed by some editorial employees from the struck dailies. It would be published for the duration of the strike, Williams said.

The paper, to be known as the New York Standard, would be mailed free to clients of the credit plan, and also sold on newsstands.

The printers' union struck Dec. 8 against the Times, Daily News, Journal-American and World-Telegram & The Sun. The five other major dailies closed down under a one-struck, all-struck policy.

HAVANA (AP)—Western diplomats searched in vain today for anything in Prime Minister Fidel Castro's anniversary speech that they could interpret as a promise of any basic change in U.S.-Cuban relations.

Most of the 90-minute speech Wednesday, following a military parade that displayed for the first time in Cuba ground-to-air and coastal defense missiles, was a scorching attack on the United States and President Kennedy.

On the fourth anniversary of the prime minister's power, six of the sleek missiles rumbled past bug-eyed crowds. Castro made only a brief reference to them, saying, "Today, the first ground-to-air do da Vinci painting and its exhibition in the United States were arranged by the French government."

But Castro took a middle course in the ideological dispute between Moscow and Peking. Acknowledging that he was concerned by "discrepancies that have arisen in the socialist camp," Castro

said, "our duty is to struggle for unity inside the socialist family."

"FIRM AS EVER"

He was as firm as ever against U.S. demands—recently soft-pedaled—for international inspection to insure that all the Soviet "offensive" missiles and jet bombers have left Cuba.

Stressing Cuban sovereignty, he said, "for that reason we do not accept the unilateral inspection intended by imperialism to humiliate. For that reason there was no inspection, there will be no inspection."

Castro called President Kennedy a "vulgar bandit chief" and said the U.S. chief executive had degraded his high office more than any other president.

Castro said he had forced the United States to pay an indemnity of \$53 million for the release of the Bay of Pigs invasion prisoners.

"For the first time in its history, imperialism paid an indemnification of war," he declared.

He said they would keep Cuban air space clear of intruding U.S. planes.

But an emotional radio announcer exulted that the rockets could "knock down an enemy plane at its highest flight ceiling."

Washington officials had been looking forward to Castro's anniversary speech for clues that might show whether Premier Khrushchev's backdown in the Cuban crisis might have changed Castro's reliance on Moscow and induced a warmer feeling for Red China.

UNIVERSITIES HAVE NEW PLAN FOR STATE AID

HARRISBURG (AP)—Pennsylvania's five major state-aided colleges and universities have come up with a new plan for sharing state funds in the future.

Dr. David H. Kurtzman, administration secretary for retiring Gov. David L. Lawrence, announced Thursday that presidents and representatives of the five schools arrived at the formula during a recent breakfast meeting here.

The schools involved are Pennsylvania State University, Temple University, the Drexel Institute of Technology and the Universities of Pittsburgh and Pennsylvania.

NEED SCRANTON OK

Still needed however is the endorsement of the incoming Scranton administration and approval of the 1963 legislature before the plan can become effective.

Basically, the formula is based on the proposition that each school should get at least what it gets now, then more for what it does to step up research, lower tuition, raise teacher salaries, expand graduate work and increase enrollment of Pennsylvania students.

If implemented, the five institutions would split a proposed \$7.2 million increase in present state

Fugitive Caught After Year In N.M.

ALBUQUERQUE, N. M. (AP)—John Chester Mitchell, 24, of Fayetteville, Pa., who broke out of the state correctional institution at Huntingdon, Pa., a year ago, has been arrested in southern New Mexico.

FBI agent H. O. Hawkins told Thursday that Mitchell was arrested by state police on bad check charges Dec. 22, 1962, at his mountain hideout in Ruidoso. A fingerprint check revealed his true identity.

Mitchell, jailed on convictions of burglary and larceny, had escaped from Huntingdon with another inmate on Jan. 5, 1962. The other man was captured a month later.

aid this way in 1963-64: Penn State \$4 million; Temple \$1.5 million; Drexel \$698,000 and Pitt and Penn, about \$500,000 each.

Presently Penn State receives \$20 million a year, Temple, \$4.2 million, Drexel, \$750,000, Penn \$3.7 million and Pitt \$3.1 million. The funds for 1963-64 would be over and above the present amounts.

The current appropriations however, do not include aid for the medical schools at Pitt, Penn and Temple, nor other related schools at the institutions.

The formula itself is complicated and takes six single-spaced typed pages to explain.

It divides the schools into three separate categories. Penn State is recognized as the "state university" and therefore is entitled to special help. Temple is called a "state-related" school, and is entitled to special consideration by virtue of its low tuition.

The third category is the private state aided schools—Pitt, Penn and Drexel.

There is no guarantee that the Scranton administration will accept the formula, but Kurtzman did point out that a Scrantonite, John W. Ingram, the next secretary of administration, sat in with Lawrence representatives and the college presidents while the agreement was completed.

Lawrence himself urged the 1963 legislature to adopt the program in his speech opening day Tuesday.

NEW RR "HQ" DECISION IS BEING HELD UP

PHILADELPHIA (AP)—The Pennsylvania and New York Central Railroads are withholding decision on where they will headquarter any combined operation until their proposed merger comes closer to being fact.

James W. Oram, PRR vice president for public and employee relations, made the announcement Thursday at a press conference in advance of resumed Interstate Commerce Commission hearings into the merger.

Hearings will be held here Jan. 16-18.

Oram, referring to past ICC hearings on the proposal, said they served to show that the statements opposing the merger were "based on erroneous misconceptions."

MORE OPPOSITION

He called such statements propaganda.

The only active opponents so far, he added, have been the labor unions and Milton J. Sharp, president of Jerrold Electronics Corp.

Shortly after the press conference, however, it was announced in Harrisburg that Gov. Lawrence has directed Atty. Gen. David Stahl to have the commonwealth oppose the merger at hearings in Harrisburg, opening Jan. 14.

Britain Slashes Interest Rates

LONDON (AP)—Britain Thursday slashed its official bank lending rate by a half point, from 4½ to 4 per cent.

It was the sixth successive cut since the summer of 1961 when the bank rate was at a postwar high of 7 per cent.

The reduction in the Bank of England rate had been widely expected following recent moves by Chancellor of the Exchequer Reginald Maudling to pump more money into the economy.

More Than 1,000 Killed Over Holiday

CHICAGO (AP)—More than 1,000 persons were killed in traffic accidents during the long New Year's and Christmas holiday periods. The over-all total of accidental deaths was more than 1,400. The nation's traffic death toll for the four-day New Year's holiday was 382 compared to the record low of 375 for a similar holiday period in 1951-52. The record high since World War II is 409 set in 1956-57.

In addition to the traffic deaths during the New Year's holiday, 84 perished in fires and 132 were killed in miscellaneous accidents, a total of 598.

During the 102-hour Christmas holiday period, traffic fatalities totaled 646, 107 lost their lives in fires and 85 died in miscellaneous accidents, a total of 838.

RAIL MERGER OKAY ASKED

PHILADELPHIA (AP)—The Chamber of Commerce of Greater Philadelphia urged the Interstate Commerce Commission today to approve the proposed merger of the Pennsylvania and New York Central railroads.

In a 34-page statement filed with the ICC the chamber said the merger would bring a net gain of 2,000 jobs to Pennsylvania and would "substantially benefit the economies of all greater Philadelphia as well as the state."

Its statement, the chamber said, was compiled following what it termed intensive study of the merger proposal and its impact on the state and regional economy.

Although taking note that some jobs would be lost by a 31-train-per-day-cut in service, the chamber said the merged line plans to locate three of its large scale maintenance, repair and construction operations in the state.

This, it said, would offset the 1,300 jobs lost through the reduction in service and contribute greatly to the net gain of 2,000 jobs.

GOVERNMENT PUTS BRAKES ON DEDUCTIONS

By STERLING F. GREEN
WASHINGTON (AP)—The government has set the brake on free-wheeling fun at the expense of other taxpayers.

The cost of business travel is always a legitimate income tax deduction. But too many trips—when examined by the tax man—have turned out to be work-and-play excursions with the emphasis on play.

From Jan. 1 on, out-of-town playtime is strictly at the taxpayer's own expense under the Internal Revenue Service's new regulation for business travel, entertainment and gifts.

EFFECTIVE THIS YEAR

The regulation, effective for 1963 income tax returns, is designed to insure that the great body of American taxpayers isn't footing the bill for free-loading junkies, night club and theater forays to the big city, and winter vacations under the southern sun.

Taxpayers who claim deductions for travel costs must record in a diary or account book every expenditure for out-of-town meals, lodging and incidentals, large or small. A voucher or receipt must be retained and kept for any outlay of \$25 or more, except for train, plane or bus tickets.

However, employees who are reimbursed for travel, entertainment and gift outlays, and therefore do not claim deduction of

their own, are not expressly required to keep the diary of costs which IRS otherwise demands.

OTHER PROVISIONS

Companies which follow the fairly common practice of giving employees a flat per diem allowance for travel of \$25 or less need not keep substantiating records. The \$25 limit does not include entertainment, or plane or rail fares.

Similarly, a mileage allowance for transportation can be used without substantiation if it does not exceed 15 cents a mile.

The day to day record of business travel which the new regulations require must be completed within a couple of days after the expenditure was made and must include the following information:

1. Amount. Each outlay must be noted separately, although breakfast, lunch and dinner may be shown for each day as a single item, "meals." Small and incidental items also may be grouped under such headings as taxi fares, tips, or gas and oil.

2. Time. The record must show the dates of departure and return, and the number of days spent away from home on business.

3. Place.—The city of destination or area of travel.

4. Business purpose. The business reason for the travel must be stated.

Special Election In Jefferson Co.

HARRISBURG (AP)—A special election will be held Feb. 19 in Jefferson County to fill the vacancy left by the death of Republican state Rep. Samuel B. Dennison.

The date was set Thursday by House Speaker W. Stuart Helm, but brought an immediate protest from Democratic State Chairman Otis B. Morse.

Dennison died in November, pining the Republican majority in the house for the 1963 legislature to 108-101.

However, Morse contended that the special election ought to be held in conjunction with the May 14 primary to save taxpayers money.

JASCHA HEIFETZ

SANTA MONICA, Calif. (AP)—The wife of violinist Jascha Heifetz is suing for separate maintenance, charging extreme mental cruelty.

Frances Sears Heifetz, 32, asked Thursday for \$3,750 a month temporary support for herself and their son, Joseph, 14. She said Heifetz, 62, has assets of more than \$1 million.

The couple married Jan. 6, 1947, and separated last May 26, the court petition stated.

FATHER OF 21

TUCSON, Ariz. (AP)—Deputy Sheriff Albert Pina of Pima County is a proud father—for the 21st time.

"They say it's cheaper by the dozen," Pina quipped as he brought his wife and new daughter, Anne, home from the hospital Thursday. "I'm trying to see if it's cheaper by the second dozen."

UNIVERSITIES HAVE NEW PLAN FOR STATE AID

HARRISBURG (AP)—Pennsylvania's five major state-aided colleges and universities have come up with a new plan for sharing state funds in the future.

Dr. David H. Kurtzman, administration secretary for retiring Gov. David L. Lawrence, announced Thursday that presidents and representatives of the five schools arrived at the formula during a recent breakfast meeting here.

The schools involved are Pennsylvania State University, Temple University, the Drexel Institute of Technology and the Universities of Pittsburgh and Pennsylvania.

NEED SCRANTON OK

Still needed however is the endorsement of the incoming Scranton administration and approval of the 1963 legislature before the plan can become effective.

Basically, the formula is based on the proposition that each school should get at least what it gets now, then more for what it does to step up research, lower tuition, raise teacher salaries, expand graduate work and increase enrollment of Pennsylvania students.

If implemented, the five institutions would split a proposed \$7.2 million increase in present state

Fugitive Caught After Year In N.M.

ALBUQUERQUE, N. M. (AP)—John Chester Mitchell, 24, of Fayetteville, Pa., who broke out of the state correctional institution at Huntingdon, Pa., a year ago, has been arrested in southern New Mexico.

FBI agent H. O. Hawkins said Thursday that Mitchell was arrested by state police on bad check charges Dec. 22, 1962, at his mountain hideout in Rudoso. A fingerprint check revealed his true identity.

Mitchell, jailed on convictions of burglary and larceny, had escaped from Huntingdon with another inmate on Jan. 5, 1962. The other man was captured a month later.

aid this way in 1963-64: Penn State \$4 million; Temple \$1.5 million; Drexel \$688,000 and Pitt and Penn., about \$500,000 each.

Presently Penn State receives \$20 million a year, Temple, \$4.2 million, Drexel, \$750,000, Penn \$3.7 million and Pitt \$3.1 million. The funds for 1963-64 would be over and above the present amounts.

The current appropriations however, do not include aid for the medical schools at Pitt, Penn and Temple, nor other related schools at the institutions.

The formula itself is complicated and takes six single-spaced typed pages to explain.

It divides the schools into three separate categories. Penn State is recognized as the "state university" and therefore is entitled to special help. Temple is called a "state-related" school, and is entitled to special consideration by virtue of its low tuition.

The third category is the private state aided schools—Pitt, Penn and Drexel.

There is no guarantee that the Scranton administration will accept the formula, but Kurtzman did point out that a Scranton tide, John W. Ingram, the next secretary of administration, sat in with Lawrence representatives and the college presidents while the agreement was completed.

Lawrence himself urged the 1963 legislature to adopt the program in his speech opening day Tuesday.

NEW RR "HQ" DECISION IS BEING HELD UP

PHILADELPHIA (AP)—The Pennsylvania and New York Central Railroads are withholding decision on where they will headquarter any combined operation until their proposed merger comes closer to being fact.

James W. Oram, PRR vice president for public and employee relations, made the announcement Thursday at a press conference in advance of resumed Interstate Commerce Commission hearings into the merger.

Hearings will be held here Jan. 16-18.

Oram, referring to past ICC hearings on the proposal, said they served to show that the statements opposing the merger were "based on erroneous misconceptions."

MORE OPPOSITION

He called such statements propaganda.

The only active opponents so far, he added, have been the labor unions and Milton J. Sharp, president of Jerrold Electronics Corp.

Shortly after the press conference, however, it was announced in Harrisburg that Gov. Lawrence has directed Atty. Gen. David Stahl to have the commonwealth oppose the merger at hearings in Harrisburg, opening Jan. 14.

In a 34-page statement filed with the ICC the chamber said the merger would bring a net gain of 2,000 jobs to Pennsylvania and would "substantially benefit the economies of all greater Philadelphia as well as the state."

Its statement, the chamber said, was compiled following what it termed intensive study of the merger proposal and its impact on the state and regional economy.

This, it said, would offset the 1,300 jobs lost through the reduction in service and contribute greatly to the net gain of 2,000 jobs.

SAIGON FIGHT CALMS TO MOVE WOUNDED MEN

By PETER ARNETT
TAN HIEP, South Viet Nam (AP)—After 20 hours of battle, Vietnamese and Americans picked up their dead and wounded from this Mekong River Delta area Thursday. The Vietnamese forces showed little interest in chasing the Communist guerrillas who had trapped them with blistering gunfire.

Across the rice paddies, evidence of Wednesday's battle was grim.

COPTERS CRASH

Five American helicopters lay crashed in the mud. Bodies of two Americans killed in the fighting were recovered. The third American died after he was evacuated. One U.S. helicopter bore 21 bullet holes. On its deck lay the open wallet of one of the dead Americans, a 21-year-old gunner. There was a picture of his wife and child.

By early afternoon, more than 100 government dead and wounded had been picked up from thatched-roof huts, dikes and fields.

Newsmen who flew in late this morning saw smoke rolling out of the devastated hamlet of Ap Bac, where Communist guerrillas—entrenched in deep fortifications, had hit the government forces with automatic weapons fire.

Gen. Paul D. Harkins, commander of the U.S. forces in South Viet Nam, told newsmen in Saigon after a visit here he believed the government forces had encircled the Communist Viet Cong and stood a chance of crushing them. But there were no signs of any new drive against the Reds immediately.

The battle was one of the bloodiest—and costliest to U.S. support forces—so far in the war. Two more American injured were reported, bringing American casualties in the past 24 hours to three killed and 10 wounded.

A U.S. Army captain and two helicopter crewmen were killed and six helicopter crewmen were wounded in the opening phase of the battle near Tan Hiep. A U.S. Army captain and a sergeant, both paratroopers, were wounded Wednesday night when they jumped into the battle area with a group of Vietnamese reinforcements.

Two other U.S. Army men were wounded in operations elsewhere in the country.

Officials said the three American dead brought to 26 the number of Americans killed in action in the Viet Nam civil war. The Pentagon put the figure at 24 killed in action and said there had been 31 deaths from other causes.

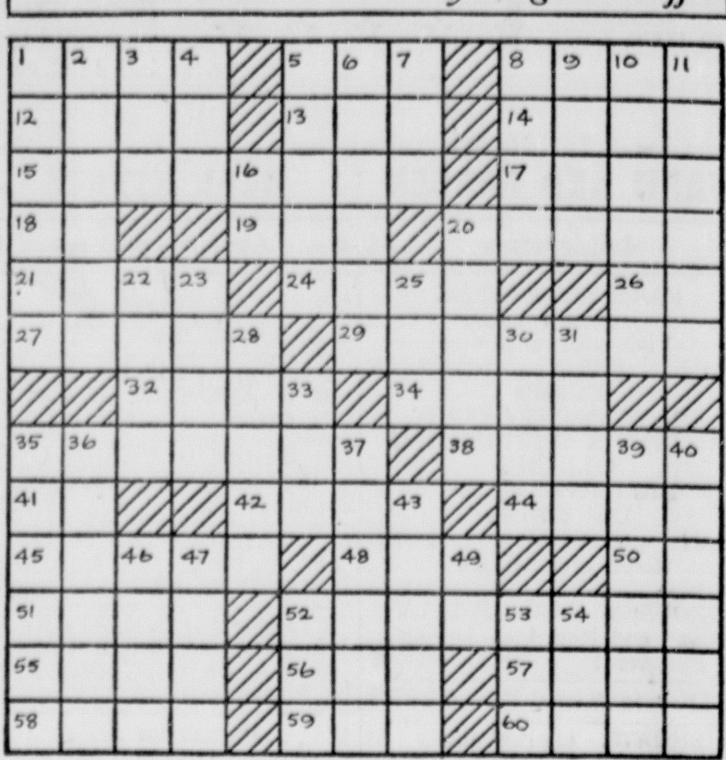

MOVE OUT DEAD

Viet Cong casualties were unknown. But there were reports of sampans loaded with dead or wounded guerrillas moving along canals leading out of the area.

The Viet Cong force that attacked from ambush Wednesday was estimated at two regular battalions reinforced by a heavy weapons company—a total of about 600 men. U.S. advisers and Vietnamese officers said they could not estimate how many remained in the area. The government poured in about 800 paratroopers.

TEHRAN, Iran (AP)—Nine workers were killed and 18 injured when a highway tunnel under construction caved in 50 miles north of Tehran, reports reaching here Thursday said. The cave-in occurred Tuesday night at Amol.

CAMERAMAN WARNED ABOUT CLICHE SHOTS

By CYNTHIA LOWRY
AP Television-Radio Writer
NEW YORK (AP)—The camera—or at least the man behind it—can be as guilty of the cliché as the writer. Thus, producer Gerald Green recently issued a list of tired news-shots he wishes could be banned forever from the television screens.

Green, who produces NBC's "Chet Huntley Reporting," started his list with the familiar shot of people looking in shop windows.

Other cliché scenes—most of which are short cuts to making a point—are close-ups of price tags, film showing slums quickly followed by pictures showing life among the rich, and new apartment buildings going up on the outskirts of the town.

FAMILIAR LOOK

Green's cliché list was directed

PETERS

Gettysburg, Pa.

toward network correspondents charged with producing foreign news reports. He expressed strong feelings about the almost inevitable shots of "the minister of security explaining, in unintelligible English, that here is a Communist threat."

All these have a familiar look to the television viewer. Green however neglected to mention my favorite—if that's the right word—news-show cliché. That is the "correspondent on the scene" shot. The intrepid reporter is shown, usually hatless but bundled up in overcoat or trenchcoat, standing smack in front of a familiar landmark—the Arc de Triomphe or 10 Downing Street—usually in a strong wind, reading his off-camera notes.

"FIRST FAMILY" BORES

Now that more than four million copies of "The First Family" have been sold, and it has been played so often people are getting a little bored with it, some radio stations are ordering their disc jockeys to stop playing the record satirizing the presidential family.

The two Republics of the Congo, formerly colonies of France and Belgium, derive their names from the Congo River. Often they are distinguished as "Congo Brazzaville" and "Congo Leopoldville," from the names of their respective capitals which lie opposite one another across the river's lower reaches.

SAIGON FIGHT CALMS TO MOVE WOUNDED MEN

By PETER ARNETT
TAN HIEP, South Viet Nam (AP)—After 20 hours of battle, Vietnamese and Americans picked up their dead and wounded from this Mekong River Delta area Thursday. The Vietnamese forces showed little interest in chasing the Communist guerrillas who had trapped them with blistering gunfire.

Across the rice paddies, evidence of Wednesday's battle was grim.

COPTERS CRASH

Five American helicopters lay crashed in the mud. Bodies of two Americans killed in the fighting were recovered. The third American died after he was evacuated. One U.S. helicopter bore 21 bullet holes. On its deck lay the open wallet of one of the dead Americans, a 21-year-old gunner. There was a picture of his wife and child.

By early afternoon, more than 100 government dead and wounded had been picked up from thatched-roof huts, dikes and fields.

Newsman who flew in late this morning saw smoke rolling out of the devastated hamlet of Ap Bac, where Communist guerrillas—entrenched in deep fortifications, had hit the government forces with automatic weapons fire.

Gen. Paul D. Harkins, commander of the U.S. forces in South Viet Nam, told newsmen in Saigon after a visit here he believed the government forces had encircled the Communist Viet Cong and stood a chance of crushing them. But there were no signs of any new drive against the Reds immediately.

The battle was one of the bloodiest—and costliest to U.S. support forces—so far in the war. Two more American injured were reported, bringing American casualties in the past 24 hours to three killed and 10 wounded. A U.S. Army captain and two helicopter crewmen were killed and six helicopter crewmen were wounded in the opening phase of the battle near Tan Hiep. A U.S. Army captain and a sergeant, both paratroopers, were wounded Wednesday night when they jumped into the battle area with a group of Vietnamese reinforcements.

Two other U.S. Army men were wounded in operations elsewhere in the country.

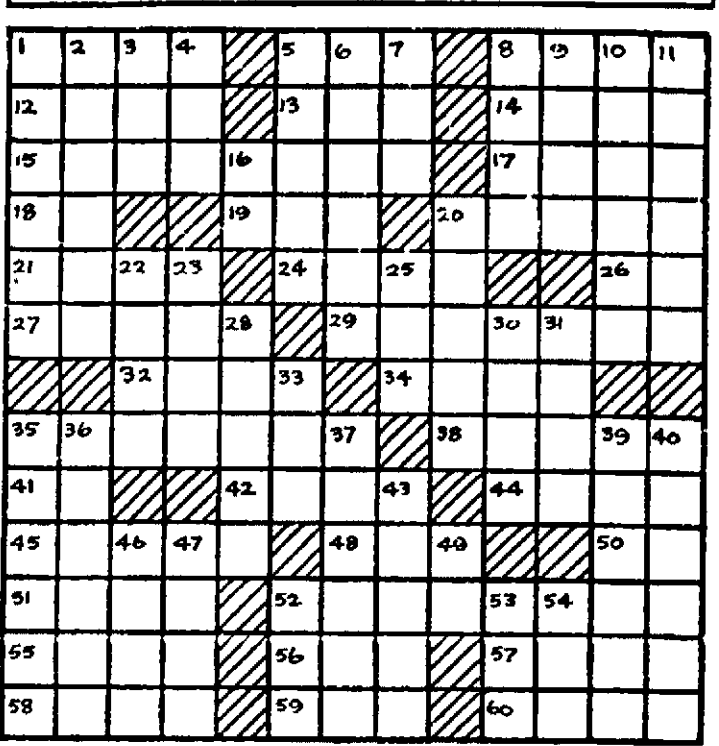

Officials said the three American dead brought to 26 the number of Americans killed in action in the Viet Nam civil war. The Pentagon put the figure at 21 killed in action and said there had been 31 deaths from other causes.

MOVE OUT DEAD

Viet Cong casualties were unknown. But there were reports of sampans loaded with dead or wounded guerrillas moving along canals leading out of the area. The Viet Cong force that attacked from ambush Wednesday was estimated at two regular battalions reinforced by a heavy weapons company—a total of about 600 men, U.S. advisers and Vietnamese officers said they could not estimate how many remained in the area. The government poured in about 800 paratroopers.

TEHRAN, Iran (AP)—Nine workers were killed and 18 injured when a highway tunnel under construction caved in 50 miles north of Tehran, reports reaching here Thursday said. The cave-in occurred Tuesday night at Amol.

CAMERAMAN WARNED ABOUT CLICHE SHOTS

By CYNTHIA LOWRY
AP Television-Radio Writer
NEW YORK (AP)—The camera—or at least the man behind it—can be as guilty of the cliché as the writer. Thus, producer Gerald Green recently issued a list of tired news-shots he wishes could be banned forever from the television screens.

Green, who produces NBC's "Chet Huntley Reporting," started his list with the familiar shot of people looking in shop windows. Other cliché scenes—most of which are short cuts to making a point—are close-ups of price tags, film showing slums quickly followed by pictures showing life among the rich, and new apartment buildings going up on the outskirts of the town.

FAMILIAR LOOK

Green's cliché list was directed

toward network correspondents charged with producing foreign news reports. He expressed strong feelings about the almost inevitable shots of "the minister of security explaining, in unintelligible English, that here is a Communist threat."

All these have a familiar look to the television viewer. Green however neglected to mention my favorite—if that's the right word—news-show cliché. That is the "correspondent on the scene" shot. The intrepid reporter is shown, usually hatless but bundled up in overcoat or trenchcoat, standing smack in front of a familiar landmark—the Arc de Triomphe or 10 Downing Street—usually in a strong wind, reading his off-camera notes.

"FIRST FAMILY" BORES

Now that more than four million copies of "The First Family" have been sold, and it has been played so often people are getting a little bored with it, some radio stations are ordering their disc jockeys to stop playing the record satirizing the presidential family.

The two Republics of the Congo, formerly colonies of France and Belgium, derive their names from the Congo River. Often they are distinguished as "Congo Brazzaville" and "Congo Leopoldville," from the names of their respective capitals which lie opposite one another across the river's lower reaches.
